Good Morning Mr. Hanson,

Thank you for your concern. We have very different points of view on this case, so please request a hearing for your motion to be heard.

As stated previously, I will be happy to discuss discovery once the initial disclosures are provided. Until the disclosures are provided, discovery cannot begin as outlined in the Florida Rules of Civil Procedure. A link to the documents would be acceptable. If I have issues with opening the link, I will let you know.

While I appreciate your willingness to limit some of the testimony, I need to obtain an order. As you are also seeking the deposition of Judge Ayers' judicial assistant, I would need an order for her as well. Judicial Immunity does extend to some of her duties as well, so an order would need to be obtained for her as well.

Thank you,

Hi SAAG Schwieterman. I just left you a VM. I explained some concerns about the AG's branch supporting the judicial circuit which is obvious concealment of public records, for the purpose of concealing judicial and attorney misconduct. There's simply no other explanation for the facts I've

pointed out I believe the AG's obligations to the constitution and citizens create a serious conflict there. perhaps I'm missing something? Can you discuss with me or just let me know the basis or reasoning for the AG's office continuing to represent them under these facts?

Is the Court going to produce any records at this point? If a party were doing what the 13th Circuit is actively doing, any reasonable Judge would order immediate production and sanction them. Why does the 13th Circuit simply get away with it with executive branch support? I believe that is an open and obvious violation of my constitutional rights in violation of US Code section 1983. I'm drafting a Federal lawsuit related to these matters and the AG's office involvement supporting the 13th Circuit's tactics will require significant, research, writing, and time.

Please consider whistleblower protection or simply demand the 13th Circuit abandon their bait and switch concealment tactics and turn over the public records!! **If that doesn't happen, I need to get a hearing on my motion to disqualify this week, however, we should also set the hearing for 2-5 as you suggest below just in case it's still not resolved then.**

As far as initial disclosures, the record is vast and spans at least 5 dockets now What is the best way to provide you with the records? Are links to PDF documents acceptable. I'll have trouble emailing some enormous documents. Or, perhaps you have access to the records already? I'll get that stuff over this week once you clarify best manner of production.

Looks like you're available 2-6-26 and 2-9-26. I'd like to take those openings for some discovery if still necessary - Judge Ayers, Ms. Heyward, Mr. Moore, and Mr. Melendi's depositions? I might be able to agree to limiting the Ayers depo to certain parameters for this deposition (without waiving my rights to pursue additional topics and questions) if you want to try to avoid a hearing on that issue.

From outside the parties, I will need attorney Scott Davis's deposition as well. Pls let me know ASAP on who is available 2-6 and 2-9 so we can get those on the calendar. it does take a few days to prepare for depositions fully so please respond to help get on the calendar this week.

As far as the 13th Circuit reps, I believe Fla. R. Civ. P. 1.310(b)(6) requires you to produce these party witnesses. There are several more depositions I will need both within

Finally, could I speak with your supervisor about the case? Not to complain about you... Just to see if leadership is willing to reconsider its position,

My cell is 727-409-5738. Before 230 is best. Thanks

Good Afternoon Mr. Hanson,

I am not available on the 22nd as I have a hearing in another County. My availability the next week is very scarce as I have several other hearings and a full day of mediation scheduled. I will check with my clients to see when they are available, but I would request that you provide me with their full names as I do not represent Heyward, Moore, and Melendi. As such, you will need to have subpoenas issued for them. If you are seeking to depose Judges, I will have to file a motion for protective order. Please understand that this is not to prevent their deposition, but rather to limit it. Additionally, I have not received your initial disclosures as required by the Florida Rules of Civil Procedure, so please forward those along so that the discovery process will be initiated.

My paralegal will reach out to the judicial assistant to get a hearing scheduled as close as possible to the 4th of February, but I have a hearing scheduled on February 4th in another County, so I anticipate that we would be able to schedule the hearing on the 5th of February. Please let me know if you have any conflicts with that day. If so, I am available on the 6th and the 9th, so please let me know if you have conflicts on those days as well.

Thank you,

Hi Jessica. I hope you're doing well. You're coming into this at a time when I'm incredibly frustrated by all these delays. You can't imagine the problems I've run into with my kids being put in the middle like they have. It's a constant reminder of the very real and unfair impacts this is having.

I appreciated that your memo did not what are well-documented facts in the case. I hope that narrows the issue and we can work together. I don't want to make things more difficult for you or make more work for you if I can avoid it. I will do everything I can to push this to an end as fast as I can.

With that said. I need to set these depositions. I'd like to start with Ayers, Heyward, Moore and Melendi. I'm hoping that we can just get info on the camera that recorded the 4-4-25 hearing video without a depo, but if you can't provide some info on that informally, I definitely need the records custodian in charge of that particular camera too. Please let me know if we can finalize any of those for 1-22 and I'll work on a court reporter. If that date doesn't work, please propose some that do.

I understand that you're making the arguments you can. And maybe after I can review the order, we'll be able to address the concerns referenced in my reply about additional barriers to my constitutional rights and the problems I have with the exec branch working to interfere with transparency mandates. Seems to me like it's a violation of checks and balances necessary for successful separation of powers. I can research or we can discuss if you want.

I never want to make litigation ugly so pls don't assume that. I expect that you'll find that every I've said is true and I didn't ask for any of this.

Please let me know on the above and if you have a minute to talk tomorrow. Thanks.

Chris

Good afternoon Ms. Nagle,

I am awaiting the assignment of an Assistant Attorney General to represent the judges in this case. Because I will not be the attorney of record, I cannot provide any availability on their behalf. I will reach out to OSCA again to request an update on the timeline with respect to the assignment and let them know of Judge Frayman's desire to hold a Case Management Conference.

Thank you and I hope to be in touch soon with the assigned attorney.

Good afternoon Judge Frayman and Ms. Nagle. I am the plaintiff/petitioner in the above referenced action against the 13th Judicial Circuit. My understanding is that the Chief Justice of the Florida Supreme Court has reassigned the case to you. I'm copying Christian Katchuk who I believe represents the 13th Circuits and other defendants. I did not receive a copy of the order directing assignment to you until attorney Katchuk provided it to me.

I'm writing mainly to ensure that none of us are missing anything. If you've taken any action or have anything set, I'm not aware of it and don't believe attorney Katchuk is either. Please let us know your thoughts on how you'd like to proceed. I believe the mandamus aspect of the suit progresses quickly although I understand that the declaratory relief and attorney fees/costs will take longer if still necessary after the mandamus aspect of the case. Please let me know if I can provide the Court with any additional information to move this forward. Thank you for your cooperation.

Subject: Service of amended petition for writ of mandamus, recent filings

Good morning. You will find a copy of my amended Petition for writ of mandamus attached along with a composite for the updates to the pleading and the 377 pages (including duplicates) the Court provided on paper when I brought my check for the "responsive" records. I continue to push for efficiency and quick resolution to these problems. The problems and my efforts to obtain all relevant evidence and appropriate consequences will not go away. I plead with you to review the updated pleading and comply ASAP without the need for additional time, expense, and fee exposure. Please let me if you require any additional information or have any ideas on how to resolve these issues. The matter is still before the Supreme Court currently with respect to my requests to transfer a neutral venue. I do not believe anything prevents us from resolving these issues while we wait for the Chief Justice's opinion on that. Thank you for your cooperation.

Good morning. I am again forwarding the attached letter and email dated October 27, 2025, regarding my outstanding public records requests (including but not limited to Requests 6, 7, and 8 from October 14, 2025). As of today, November 12, 2025, I have received no substantive response, production of records, explanations for delays, or

timelines for compliance, despite the requirements under Article I, Section 24 of the Florida Constitution, Florida Rule of Judicial Administration 2.420, and under Chapter 119, Florida Statutes. I am arguing that the Courts (and the legislature) need to reassess the holding in Ake given the level of corruption that's infested the judiciary since that holding. This continued non-responsiveness, and apparent intent to conceal, constitutes an unlawful refusal and constructive denial, further evidencing bad faith. Pursuant to Section 119.12(1), Florida Statutes, declaratory relief statute, and relevant common law, I want to further confirm that I intend to seek attorney's fees and costs for this unreasonable denial, including any enhanced awards for bad faith and intent to cover for oneself and his/her fellow judiciary employees. Please also allow this letter to confirm my intent to pursue sanctions under f.s. 57.105 for the failure to comply with these 8 public records requests, should the concealment continue after the 21 day safe harbor provision. The ongoing delays are causing irreparable harm to my family and obstructing justice in the underlying case (24-DR-001150). Even worse, it seems that the Court and all Florida oversight up the supreme Court is fully on board with covering up the corruption even to the ongoing detriment of a family that came to the Court with a simple problem with an obvious solution, over a year and a half ago. This is incredibly egregious misconduct where the 13th Circuit actors are circling the wagons to fight against transparency and justice, in direct contradiction to your sworn duties. Perhaps there will be a whistleblower that will help bring this to an end. It's causing great hardship on me and my family, but I assure you that I will find time to fully pursue this either way. It's a matter of how much the Court system is willing to damage a family in its obsession with protecting insiders over all else.

I demand immediate production of all responsive records, a detailed explanation for any withholdings with specific statutory or rule-based citations, and confirmation of search methods including devices and applications checked). Please also provide an explanation for the delays and inconsistent handling with these more recent requests compared to the earlier ones.

Please also confirm for me if there is a new court administrator in place. I understand Ms. Justice let her position by 10-14-25. I'm continuing to use the TCA email for now.

Thank you for your cooperation.

Sincerely,

Good afternoon all. Please find my formal follow up letter on the October 14, 2025 public records requests attached. These requests were handled very differently. I never received contact information for the legal department. I'm happy to communicate with them directly if that's easier.

I'm just hoping for timeliness and efficiency. I'd much prefer resolving this over filing more litigation. Perhaps we can even resolve the pending litigation? It's critical to the handling of my ongoing divorce proceedings to get this information. Please respond at your earliest opportunity. Thank you for your cooperation.
