Hi Mr. Hanson,

I will do my best to address the topics you've raised.

- The University already submitted the documents to the Court in compliance with the Court's order as announced at the hearing. This occurred before you filed your proposed order, which the University does not agree to, nor does the University agree to a "Motion to Establish Protocol for In Camera Inspection." You were not copied on this correspondence because you are not entitled to view the unredacted documents. You can find the email submitting the documents attached, though without access to the unredacted records. You can see where I asked Ms. Hall to include you when she confirmed receipt, which she has yet to do. I understand your latest email to be a request for those same materials. I will have that request processed through the portal and provided to you once any exempt or confidential information is redacted.
- Request no. W019186-071326 was provided to you on August 5, 2026, through the public records portal. The University will not agree to a "motion for leave to serve a supplemental petition." After you have reviewed that production, please let me know if you have any questions or clarifications.
- It is not clear to me if you are making additional public records requests in your email. The best way to submit specific requests for public records is through the portal. I will remind you that the Court has issued a protective order as to further discovery. As long as that order is in effect, any document requests from you must be treated as public records requests.
- The hearing on September 2, 2026, was set for 90 minutes. The Court graciously allowed you an additional hour to present your case. Your use of that time, such as your decisions on which witnesses to call and how to question them, represents your litigation strategy. That hearing has concluded. The University will not agree to any continuance or reconvening of the hearing for additional testimony or for any other reason.
- The University submitted its proposed order from the August 24, 2026, hearing on August 25, 2026, at 12:35 PM via email. You were copied. The email is attached. The University does not agree with your proposed order for that hearing. It is very unlikely that the University will agree to a motion for reconsideration, though the University cannot be certain until the written order is entered.
- As I have already pointed out, I will not engage in telephone conversation with you because we have yet to have a conversation where you did not personally attack me and/or hang up on me. You repeated this demeanor at the last hearing where you insulted the witnesses, me, and the Court. I see no reason to expect your behavior to be any different for future phone calls.

Thanks,

**Jim Kirkconnell**  
Assistant Counsel  
UF Office of General Counsel  
(352) 392-1358

**Subject:** Case No. 01-2026-CA-001794: conferral on motions; request for the native files of the 426 pages and the four later batches; in camera submission due September 8

[External Email]

Mr. Kirkconnell:

This email does three things. It

1) seeks confirmation that you agree with proposed order filed this morning and the requirement that the documents produced for the in camera inspection include a certification as to their source - specifically to prove compliance with producing the batches of records identified as early as 3-30-26 and discussed at the hearing yesterday.

2) confers on the motions I intend to file, so that each certificate of conferral can report the University's position.

3) It asks for the records the University filed with its motion for protective order, in the form the University keeps them, with the metadata the filed copy does not carry.

**1. Certification as to source of records for in-camera production:** You and your clients keep insisting that you all have nothing to hide. This is a very basic request to help confirm you are proceeding in good faith. The Court ordered the located documents delivered within five days of September 2. By my count that is Tuesday, September 8, with Labor Day excluded. I transmitted a proposed Order on In Camera Inspection to the Court on September 3. It asks for a sworn certification of completeness by the records custodian; a page index stating each document's date, author, recipients, subject, source batch, prior category designation, and any exemption claimed; the certification and index served on me when the documents go to chambers; chain of custody by source location; and preservation of the native forms. Does the University agree to submit on those terms? I cannot imagine any basis to object to this. Please confirm your agreement or basis for refusing, whichever the case.

**2. The native files.** On July 30 the University filed 479 pages as Exhibit D. What it filed is a rendering: redacted, stamped by category, and flattened, with the creation dates, file names, and other metadata of the source files left behind. The filed document's own structure shows it was built from three files named "Category 1," "Category 2," and "Category 3," inside a file named "20260729 MPO Exhibit D." Nothing the University has produced or filed says where those three files came from, when they were made, who made them, or which of the deliveries in its own processing file they hold. Paragraph 24 of the motion reports 479 pages. No delivery in the University's own records is 479 pages.

Those files have been the subject of a pending request since July 13. Item 1 of request W019186-071326, acknowledged by the University's portal at 2:36 PM that day, asks for "the search outputs for Request No. W018463-032626: the hit list(s), result list(s), export(s), or equivalent output generated by UFIT when it 'gathered over 470 pages of documents' responsive to the request, in native format, with associated metadata." On July 14 you wrote that the request "will be processed in due course." Seventeen days later the University filed a flattened copy of those exports with the Court and produced nothing to the requester. Today is day 52. And I've heard nothing from you.

Please produce each of the files (that make up the 741 page production) in their native form with metadata intact, with the same redactions the University applied on July 30 and no others. The 53 pages the University produced on May 4 came to me as native files with their metadata; I am asking for the remaining 426 pages in the same form, plus the four batches the University has never identified to me. If the University declines as to any file, please say which and why, in writing, by the close of business Friday, September 4.

**3. Conferral on the motions:** If you agree on the proposed order, I will not need to file a motion. If it does not, I intend to file a **Motion to Establish Protocol for In Camera Inspection** asking for the same relief and for an expedited ruling before the submission is made. Please state the University's position by the close of business Friday, September 4.

Conferral on the **motion for leave to serve a supplemental petition**. I intend to move under Rule 1.190(d) for leave to serve a supplemental petition adding two counts: request W019186-071326, acknowledged July 13 and unanswered as of today; and the University's July 17 statement on request W018964-060526 that no records exist for parts 2, 3, 7, and 8, which the University's own production contradicts as to parts 3 and 7. Does the University agree to the supplemental petition being served in this case number? The only difference would be that it would save me a few hundred dollars. I hope that the university is not inclined to force me to waste money in order to continue pursuing protection of my constitutional rights. But I'm surprised at how this has progressed all along so let me know either way.

In the alternative, does the University intend to respond to W019186-071326, and when?

Conferral on **motion for reconsideration of the August 24 ruling**. The Court granted the University's motion for protective order from the bench on August 24. No written order has been entered. Is the University preparing a proposed written order? If so, please send me the draft before it goes to the Court, and please state in it the ground the Court gave ("outside the scope") and the duration ("pending the outcome of the immediate hearing"). When a written order is entered, I intend to move for reconsideration on it. Does the University oppose?

**Motion to complete testimony:** Mr. Quiros was served for September 2 and did not appear. I intend to ask the Court for his testimony, for the completion of the other witnesses, for my own testimony, and for Ms. Quillen's. Does the University oppose, and will it produce Mr. Quiros without a further subpoena?

I will also be filing a motion to complete the testimony from the three witnesses who appeared for the hearing yesterday. Please let me know whether you object to that as well

If you'd like to set up a telephone conference, please let me know and I'm happy to speak about these issues. If the University does not respond by Friday, September 4, I will report that in the certificate of conferral. I continue to look for the most efficient path to resolve these issues. However it appears I still need to be mentioned at the university that I am not going away until my rights are fully protected. I encourage you to consider the facts and whether there is a reasonable way that you can expect to make things better moving forward without compliance. Thank you for your cooperation.

Christopher A. Hanson Florida Bar No. 44094 Self-represented Petitioner 727-409-5738

On Thursday, September 3, 2026 at 08:29:17 AM EDT, [REDACTED] wrote:

Good morning.

Following up on my email sent yesterday at 1:34 p.m. Attached for Judge Keim's consideration is a proposed Order Establishing Protocol for In Camera Inspection.

In order to resolve these issues, it's critical that the records produced for in camera inspection include all records identified during the search process. That requires documentation to support that the various batches of records identified (330, 10, 109, 88, and 621 pages, and the batches of 103 and 17 messages) and all other materials responsive to the request are included for the Courts review. That will inherently require the University of Florida to produce additional documents that explain what happened to these various batches that were identified as early as March 30, 2026, yet never produced nor otherwise addressed.

The proposed order asks for three things with the submission: a sworn certification by the records custodian on completeness (addressing issues raised above), a page index identifying each document by date, author, recipients, subject, and source batch, and a copy of the index (not the documents) served on Petitioner, also within 5 days.

The reason is in the record. By March 30, 2026 — four days after the request — the University's own records logged 340 pages in hand. They did nothing to respond to the public records request for over 3 weeks. The University has since twice stated that production was complete, and its own records showed otherwise both times. On May 4, 2026 it wrote "This completes the public records request" — a production of 53 pages — and on May 5 that it had "conducted a good faith search" with "[n]o exempt information ... withheld," while its own IT unit had reported that morning that the search tool had "stalled" and that 17 messages "should have been included previously." An attorney for UF segregated an 88-page file on May 7, 2026 with no explanation or justification. The in-camera inspection must address these issues in order to resolve anything in the case.

Relevant authority requires this specification as well: a custodian who withholds must state the basis with the statutory citation and, on request, with particularity, § 119.07(1)(e)-(f), Fla. Stat.; the purpose of in camera inspection is "to decide whether there are sufficient reasons not to release" the information, *Tribune Co. v. Public Records*, 493 So. 2d 480, 484 (Fla. 2d DCA 1986); and where records go into a court's custody, Florida requires the custodian's written certification that they have been copied, indexed, and delivered, Fla. R. Crim. P. 3.852(e)(2); § 27.7081(6)(b), Fla. Stat.; see also Fla. R. Civ. P. 1.280(k), 1.350(b)(6).

If an entity holding records is not required to produce the actual records at issue for in-camera inspection, the entire process is unreliable and fails to resolve any dispute. And petitioner now respectfully requests that the court ensure that the in-camera process is meaningful.

Thank you,  
Christopher A. Hanson, Fla. Bar No. 44094

**Subject:** Re: Case No. 01-2026-CA-001794: Question re: documents for Judge Keim

Good afternoon, The pressing issue on this is requiring UF to identify the documents as referenced in the various batches - sources, chain of custody, any legal review before the litigation started. There is clear evidence of various documents identified today that were not produced.

Absent requiring UF to account for the actual records located as proven in their own materials, this exercise is meaningless and further demonstrates the illusory nature of the constitutional rights in this case. I hope that is not the Court's objective here. It will only cause more delay and expense.

- Mr. Kirkconnell - do you object to specifically identifying how the records you will produce relate back to the various batches, folders, and files described in UF's own materials and during the deposition today?

- From the testimony today it's clearly doable.

Also, the Court was not clear on identifying enough info about the materials - date, author, etc. I'm requesting that UF provide that.

I had Mr. Quiros formally served for appearance today. He failed to attend the hearing. He is the only one with firsthand knowledge of the searches, etc. I request the opportunity to depose him or question him at a hearing. Also, I'm requesting to finish testimony from the other witnesses and offer testimony myself. Finally, I still require testimony from Ms. Amy Quillen.

Please let me know on the above or if I need to just file another hearing. Most of this is already pending before the Court. Thank you.

Chris

Hi Ms. Hall,

Thank you for allowing delivery by electronic means. I have attached ten files to this message. Please let me know if you have any issues accessing them.

Six files are the files forwarded to the public records office as part of fulfilling this request. These six files are directly responsive to the Court's order from today's hearing, as described below. I have also included four emails (all in evidence from the hearing) identifying each group of documents.

| Identifying Email                                             | File Name                                                | Page Count |
|---------------------------------------------------------------|----------------------------------------------------------|------------|
| 340 pages (Exhibit I; Wood to Hines, 03/30/2026 02:14:29 PM)  | Email.pdf                                                | 10         |
|                                                               | ISS-444193-W018463-032626-103-330-opt.pdf                | 330        |
| 109 pages (Exhibit N; Wood to Hines, 05/04/2026 11:11:08 AM)  | ISS-444193-W018463-032626-17-106-opt.pdf                 | 106        |
|                                                               | ISS-444193-W018463-032626-1-1-opt-RequestedMessage.pdf   | 3          |
| 88 pages (Exhibit Z; Wood to Quillen, 05/07/2026 02:11:59 PM) | ISS-444193-W018463-032626-16-88-opt-SpecificKeywords.pdf | 88         |

|                                                               |                |            |
|---------------------------------------------------------------|----------------|------------|
| 1 page (Exhibit O; Hines to Bambauer, 05/05/2026 11:53:23 AM) | 1000044214.png | 1          |
| <b>Total</b>                                                  |                | <b>538</b> |

These records contain some exempt information and are intended for an *in camera* review only; therefore, Mr. Hanson has not been included on this correspondence. I would respectfully request that you copy Mr. Hanson when you confirm receipt (while omitting attached files) so that he is aware that the documents have been delivered.

I had Mr. Quiros formally served for appearance today. He failed to attend the hearing. He is the only one with firsthand knowledge of the searches, etc. I request the opportunity to depose him or question him at a hearing. Also, I'm requesting to finish testimony from the other witnesses and offer testimony myself. Finally, I still require testimony from Ms. Amy Quillen.

Please let me know on the above or if I need to just file another hearing. Most of this is already pending before the Court. Thank you.

**Subject:** Case No. 01-2026-CA-001794: Question re: documents for Judge Keim

Good afternoon, Ms. Hall,

In today's hearing in the above-referenced case, Judge Keim ordered Attorney Kirkconnell to provide her with all documents located by the University in fulfilling public records request W018463, including all non-responsive records, for an *in camera* review. Would Judge Keim prefer these documents to be sent to her electronically or would she prefer paper copies?

Thank you,

**Kimberly LoGiurato**
