

IN THE CIRCUIT COURT OF THE THIRTEENTH JUDICIAL CIRCUIT

IN AND FOR HILLSBOROUGH COUNTY, FLORIDA

CIVIL DIVISION

CHRISTOPHER HANSON, individually and as attorney for himself and attorney/next friend for his minor children,

Plaintiffs/Petitioners,

v. Case No.: 25-CA-010255

Division: B

THIRTEENTH JUDICIAL CIRCUIT, et al.,

Defendants/Respondents.

PLAINTIFF'S MOTION FOR PRODUCTION OF THE APRIL 4, 2025 HEARING VIDEO AND, IN THE ALTERNATIVE AND WITHOUT WAIVER, SUBMISSION ON GOOD CAUSE IN RESPONSE TO THE AUGUST 27, 2026 ORDER

Plaintiff, Christopher Hanson, self-represented, moves for an order directing production of the April 4, 2025 hearing-room video recording from Case No. 24-DR-001150 (the "Video"), and states:

WHAT THE COURT ORDERED AND WHAT DEFENDANTS FILED

1. The Florida Constitution presumes that every record of the judicial branch is open, and it places on the custodian who withholds one the burden of proving an exemption. Art. I, § 24(a), Fla. Const.; Fla. R. Gen. Prac. & Jud. Admin. 2.420(a); *Barfield v. Sch. Bd. of Manatee Cnty.*, 135 So. 3d 560 (Fla. 2d DCA 2014). From the first denial on August 21, 2025 to Defendants' September 2, 2026 filing, the Thirteenth Judicial Circuit withheld the Video on the word "surveillance" for 377 days. There is still no evidence to support that label, not even a signed affidavit. The preliminary question that must be answered is whether there was ever any basis in law or fact for the 13th Circuit's "surveillance" label.

2. Plaintiff files this motion without adopting the August 27 Order's description of his August 17 argument as a motion under section 119.071(3)(a)3.d., Florida Statutes, and without waiver of his position, stated in answer to the Court's question, that chapter 119 "can be informative" but "does not apply" to this court record and that Rule 2.420 governs. (Aug. 17, 2026 Tr. 29:3-19.) Plaintiff disagrees with that description and says so plainly: he did not ask this Court for a determination on confidentiality; he asked for the Video because no exemption has ever been proven. Plaintiff objects to that characterization and asks, below and in the companion motion for reconsideration and clarification, that it be vacated to the extent it treats Plaintiff as having conceded a request he did not make. Good cause comes up in the second half of this motion only because the Court set up that process. It is a fallback, and it does not concede anything.
3. In served discovery responses, Defendants admitted that no court order has ever determined the Video confidential and that no documented analysis preceded the denial, adding to two of those answers that "[n]o analysis was needed." (Ex. A, Resp. to Req. for Admis. Nos. 4, 6, 7.) Counsel told this Court on August 17: "We didn't need to attach an affidavit, because the documents Mr. Hanson produced proved our point." (Aug. 17, 2026 Tr. 16:5-7.)
4. On August 27, 2026, this Court gave Defendants seven days to agree that good cause exists for Plaintiff to receive the Video or to provide "a statement explaining why there is not good cause and therefore the Video should not be provided to Plaintiff," and stated: "If Defendants agree that good cause exists, or fail to timely articulate good cause as to why the Video should not be provided, the Court will enter an order finding good cause under section 119.071(3)(a)3.d., Florida Statutes, and direct release of the Video consistent with Defendants' representation to the Court." (Doc. 89, p. 2.)

5. Defendants' response, filed September 2, 2026 (Filing No. 256242348, the "September 2 Response"), assumes the Video is exempt and again states no fact supporting that assumption. It identifies no security interest, no system, no camera, and no harm from disclosure. As to Plaintiff's showing, it says that Plaintiff "has failed to plead any form of good cause," that his statements are conclusory, and that he "never specifies how" the withholding harms him. (Sept. 2 Resp., pp. 2-3.)
6. Directed to state why good cause is absent, Defendants stated no reason and instead argued Plaintiff's showing is insufficient. There is no such requirement under the law, especially when the public entity has failed to offer a shred of evidence to support its "security" label. The September 2 Response describes the record as "the April 4, 2025 hearing-room video recording," and the words "surveillance" and "camera" do not appear anywhere in it. (Sept. 2 Resp., pp. 1-4.)
7. Plaintiff asks for production on two independent grounds:
 - 1) no exemption has been established, so there is no factual dispute to justify further delay, let alone a trial. The lack of any evidence supporting the exemption is dispositive in favor of presumption of public access and Petitioner's entitlement to the video;
 - 2) Regardless, the record is replete with good cause, specifically continued retaliation from the 13th Circuit as they preside over Petitioner's litigation despite the existence of the structural conflict. The video will offer a visual aid for how bad it was nearly a year and a half ago which offers a chance at relief before Petitioner's children are directly impacted by the misconduct. A guardian ad litem was appointed, and that appointment is currently under review in the 2nd DCA.

NO EXEMPTION HAS BEEN ESTABLISHED

8. The party claiming an exemption must prove it, and exemptions are construed narrowly and limited to their designated purpose. *Barfield*, 135 So. 3d 560; *Woolling v. Lamar*, 764 So. 2d 765, 767-68 (Fla. 5th DCA 2000). The case on which Defendants' own authority rests says the same: "The agency bears the burden of proving its right to the claimed exemption." *Cent. Fla. Reg'l Transp. Auth. v. Post-Newsweek Stations, Orlando, Inc.*, 157 So. 3d 401, 405 (Fla. 5th DCA 2015).
9. The only exemption Defendants have cited is section 119.071(3)(a), together with Rule 2.420(c)(8) and Op. Att'y Gen. Fla. 2015-06. (Letters of Gina Justice, Court Administrator, Aug. 21 and Sept. 8, 2025, Doc. 83, Exs. D and E; Ex. A, Resp. Nos. 4, 6, 7.) Section 119.071(3)(a) protects a "security or firesafety system plan," which includes "audio and visual presentations ... relating directly to the physical security or firesafety of the facility or revealing security or firesafety systems," and which must be "held by an agency." § 119.071(3)(a)1., 2., Fla. Stat. The word "surveillance" does not appear in that subsection.
10. More importantly after more than a year, no affidavit, declaration, or record in this case states that the April 4, 2025 recording was made by a security-system camera, what that system is, or what disclosure would reveal about it.
11. The custodian's letters. The August 21, 2025 letter located the record by the family case's own docket entry: "A video record does exist satisfying this request, specifically, Docket #198 - April 4, 2025 hearing." (Doc. 83, Ex. D, PDF p. 23.)
12. The next sentence states only a general proposition: "However, in accordance with Florida law, surveillance video footage from security cameras located on and within courthouse facilities in the Thirteenth Judicial Circuit is confidential and exempt from public record disclosure." (Id.) The September 8, 2025 letter repeats it. (Doc. 83, Ex. E, PDF p. 26.)

13. Neither letter states that this April 4, 2025 recording was made by a security camera, identifies the system, identifies who made the confidentiality determination or when, or explains how disclosure of a public hearing would reveal anything about a security system.
14. Plaintiff pleaded this exact defect in the Amended Petition on November 13, 2025 (Doc. 12, para. 22); it has not been answered. Nor did Plaintiff ask for surveillance video.
15. Petitioner's request, as the custodian quoted it, was for "[a] copy of all visual and audio recordings from the following hearings in Case No. 24-DR-1150 ... including both live and Zoom formats." (Doc. 83, Ex. D, PDF p. 23.) The 13th Circuit counsel nonetheless told the Court that "Mr. Hanson is seeking surveillance video of the courthouse." (Aug. 17, 2026 Tr. 19:14-15.)
16. Defendants' pleadings assert that "the requested video is confidential surveillance video footage" (Doc. 55, p. 8; Doc. 65, p. 8). The only documents Plaintiff produced that bear on the label are the custodian's two letters.
17. Plaintiff asked for the facts behind the "surveillance" label ten days after the denial.
18. On August 31, 2025, he wrote to the custodian: "As the first point of clarification, please advise whether there is any video from inside the courtroom on April 4, 2025. Is it something that is connected the microphones and used for formally recording some hearings? Are there separate recording systems - for hearings vs. for security?" and asked for "a confirmation of the recording type (security vs. courtroom)." (Doc. 6, pp. 68-69.)
19. The 13th Circuit's September 8, 2025 letter repeated the August 21 sentence. On September 12, 2025, Plaintiff wrote again that the letter "restates the exemption without engaging with my specific inquiries" and listed the questions a second time. (Doc. 6, pp. 21-22.) The Public Information Officer's September 15, 2025 reply acknowledged receipt and said responses

"will be made in a reasonable manner." (Doc. 6, p. 21.) The questions have never been answered.

20. The table below sets out each occasion on which Defendants or their counsel applied the words "security," "surveillance," "protected," or "confidential" to the April 4, 2025 hearing Video, and the evidence offered for each:

Date	Source	Speaker	Defendants' words	Evidence offered
8/21/2025	Letter, Gina Justice, Court Administrator (Doc. 83, Ex. The words surveillance and camera do not appear; no fact about the recording stated.

21. The admissions. In their May 15, 2026 responses to Plaintiff's Requests for Admission, Defendants admitted that "there is no existing Court Order formally determining the April 4, 2025, video to be confidential under Florida Rule of Judicial Administration 2.420(d) or (e)" (Resp. No. 4: "Admit," followed by the same three citations); that "no documented analysis was performed by the Thirteenth Judicial Circuit to weigh the public interest in disclosure against the asserted security concerns" (Resp. No. 6: "Admit. No analysis was needed as the video is confidential pursuant to" the same three citations); and that Defendants "did not evaluate whether applying visual or audio redactions" would mitigate any security concern (Resp. No. 7: "Admit. No analysis was needed because the entire video is confidential pursuant to" the same three citations). (Ex. A, pp. 2-3.) Admitted matters are conclusively established unless the court permits withdrawal or amendment. Fla. R. Civ. P. 1.370(b).
22. The exemption that's delayed public access for more than a year while a family suffered through retaliatory misconduct from the sitting 13th Circuit Judge, all rests on a citation with no supporting facts whatsoever. The closest thing to evidence of the exemption is the assertion of the exemption.
23. The rule confirms it. Chapter 119 does not govern records of the judicial branch, *Times Publ'g Co. v. Ake*, 660 So. 2d 255, 257 (Fla. 1995), as the custodian's own letter states in its

first sentence. (Doc. 83, Ex. D, PDF p. 22.) Under Rule 2.420, "court records" include "electronic records, videotapes, or stenographic tapes of court proceedings." Rule 2.420(b)(1)(A); Doc. 47, p. 2. The rule's court-security provision, Rule 2.420(c)(2), reaches only "[m]emoranda or advisory opinions," requires a finding that no less restrictive measure is available, and requires a decision by the chief judge; none exists here. Rule 2.420(c)(8), which the custodian cited, incorporates confidentiality that exists elsewhere and creates none of its own. *Media Gen. Convergence, Inc. v. Chief Judge of the Thirteenth Judicial Circuit*, 840 So. 2d 1008 (Fla. 2003). The Video has never been designated confidential in any form the rule recognizes.

24. Three Florida decisions have applied section 119.071(3)(a) or section 281.301 to security-system records: *Critical Intervention Servs., Inc. v. City of Clearwater*, 908 So. 2d 1195 (Fla. 2d DCA 2005) (identity of alarm-permit holders); *Post-Newsweek*, 157 So. 3d 401 (transit-bus camera footage, held to reveal the system's capabilities and vulnerabilities); and *State Attorney's Office of the Seventeenth Judicial Circuit v. Cable News Network, Inc.*, 251 So. 3d 205, Nos. 4D18-1335 and 4D18-1336 (Fla. 4th DCA July 25, 2018) (campus footage, held exempt and then released for good cause). Each involved a chapter 119 agency, and in each the exemption rested on evidence about the system. None involved a recording of a public court proceeding, and none was decided on a bare assertion. Plaintiff has located no Florida decision addressing a courtroom camera.
25. The August 27 Order denied a peremptory writ because "there are factual disputes" to be resolved "upon evidence submitted by the parties." (Doc. 89, p. 3, citing *Radford v. Brock*, 914 So. 2d 1066, 1068 (Fla. 2d DCA 2005).) As to the Video, Defendants have submitted no evidence, no affidavit, no declaration, no sworn testimony, about how the recording was

made or what its disclosure would reveal about any security system, and they have identified no disputed fact on that question. Defendants have had four opportunities to support the label with evidence: the alternative writs of January and February 2026 (Docs. 47, 62), the April 15, 2026 section 57.105 notice (Doc. 78, pp. 31-32), the August 17 hearing, and the seven-day directive of the August 27 Order. They used none of them to place a single fact about the Video before the Court. The Order reserved whether chapter 119 applies to the Video at all (Doc. 89, pp. 1-2 n.1), and Plaintiff preserves, without repeating here, his position that the exemption was waived.

26. Unless defendants can produce a simple affidavit offering sworn testimony about the security or surveillance system on which the April 4, 2025 video was captured, defendants have misled petitioner and this court for far too long in order to keep this video concealed. This is a public record, by the judge's own on-the-record statements. Plaintiff/petitioner requests an immediate order compelling production of the video within five business days, absent defendants' production of actual evidence supporting the exemption.

IN THE ALTERNATIVE, AND WITHOUT WAIVER, GOOD CAUSE IS SHOWN

27. If the Court adheres to its assumption that section 119.071(3)(a) governs, the Video is releasable "[u]pon a showing of good cause before a court of competent jurisdiction." § 119.071(3)(a)3.d. Defendants supplied the standard: "a substantial reason, one that affords a legal excuse," decided "based on the peculiar facts and circumstances of each case." *Dohnal v. Syndicated Offices Sys.*, 529 So. 2d 267, 269 (Fla. 1988). Defendants also cited CNN, which held campus security-camera footage exempt and then held that good cause required its release "because the footage reveals the conduct of public servants 'discharging their

assigned duties and responsibilities." A judge presiding over a hearing is a public servant discharging her assigned duties.

28. The presiding judge put the Video's value on the record herself. At the April 4, 2025 hearing, after Plaintiff said the judge had rolled her eyes at him and she denied it:

THE COURT: You know what, sir. I will go get the camera footage and do it because I have not rolled my eyes at you.

MR. HANSON: Then please do, Your Honor. Please do request that for me.

(Ex. B, Tr. 75:12-16.) Near the end of the hearing:

MR. HANSON: Your Honor, I would ask that you request the video you referenced.

THE COURT: No, sir.

MR. HANSON: I thought you said that you could.

THE COURT: Sir, you're crossing the line. This hearing is ended.

(Ex. B, Tr. 193:9-14.) In denying Request for Admission No. 1, Defendants quoted Judge Ayers' sentence verbatim. (Ex. A, Resp. No. 1.)

29. Twenty days later, Plaintiff moved to disqualify Judge Ayers, pleading among other grounds that she rolled her eyes at him, denied it, offered "to check the tape, and then refus[ed] when requested by Husband," and asking that the videotape be provided. (Case No. 24-DR-001150, Doc. 183, paras. 77, 80.) On April 28, 2025, she granted the motion as to disqualification. (Ex. C.) Rule 2.330(h) barred her from passing on the truth of the allegations; Plaintiff cites the order only for the fact that the judge who offered the Video and then declined to obtain it stopped presiding twenty-four days later.

30. Defendants have admitted what the Video contains and its condition: "The video captures at least some of the physical demeanor, however the capture of facial expressions is limited,"

and "[t]he video has not been altered in any way." (Ex. A, Resp. Nos. 3, 5.) Even a limited capture of the bench is the only recording of the disputed conduct; the transcript is a stenographic record of words (Ex. B, Tr. 195), and words record no demeanor at all. The judge, who knew what her courtroom camera covered, invoked its footage as proof of her own demeanor. Good cause does not require Plaintiff to prove in advance what the Video shows; the judge herself said the footage would settle the question.

31. Good cause was pleaded in the Amended Petition (Doc. 12, paras. 20, 22, 47) and declared under penalty of perjury in its verification, which states that the Video is "critical evidence to the underlying case" and that the withheld records directly affect the interests of Plaintiff's minor children (Doc. 12, p. 13); it was repeated in Doc. 78, para. 29, and argued at the hearings of February 6, April 13, and August 17, 2026. The September 2 Response cites none of it; each such showing is set out in the companion motion for reconsideration and clarification.
32. The conduct the Video would show did not end when Judge Ayers left the case. When Plaintiff asked the successor judge for findings of fact, the judge answered: "I can make the ruling without findings of facts, and if the Second DCA says I need to find facts, then I'll do so." (Case No. 24-DR-001150, Apr. 17, 2026 Tr. 181:5-8.) On June 10, 2026, that judge denied Plaintiff's verified motion to disqualify him and to transfer the case to a judge outside the Thirteenth Judicial Circuit, whose judges and administrator are the Defendants here, finding the motion "legally insufficient as a matter of law." (Id., Doc. 331.) The family case remains before him, with an all-day hearing set for October 9, 2026.

33. That harm continues: the family case remains before the successor judge, with the October 9, 2026 hearing described above, and the Guardian ad Litem appointment from that same case is currently under review in the Second District.
34. Ordered to state why good cause is absent, Defendants stated no reason: no security threat, no camera capability that disclosure would reveal, no third-party privacy interest, no harm. Nothing is on the other side of the scale. Defendants have represented that if the Court finds good cause they will assert no other exemption (Doc. 89, p. 2; Aug. 17, 2026 Tr. 34-35) and "will tender the video to the Court immediately upon such an order." (Sept. 2 Resp., p. 3.)
35. No in camera review is necessary unless the Court determines otherwise under prayer (d) below. There is no evidence to support that the Video is surveillance or otherwise qualifies under any exemption, so the appropriate procedure is production directly to Plaintiff, consistent with prayers (a) and (b) below.

RULING ON THE PAPERS AND PRESERVATION

36. The Order stated that the Court "will resolve the good-cause question expeditiously based upon the parties' submissions." (Doc. 89, p. 2.) Plaintiff submits that the Court can grant the relief requested herein without a hearing. A proposed order is attached as Exhibit D. Plaintiff will accept the Video in any electronic format, complete and in its native, unaltered form, or, if file size requires, by secure file transfer, cloud download link, or physical media.
37. Because the Video is central to these actions, and Plaintiff has no information about the retention schedule applicable to it, Plaintiff asks that Defendants be directed to preserve it, with all copies, backups, and metadata, pending final disposition and any appeal.
38. Plaintiff requests a ruling directing production of the Video on the present record. Paragraph 19 of the contemporaneously filed motion for reconsideration and clarification requests

efficient and focused discovery, including interrogatories, requests for production, and a records-custodian deposition concerning nonprivileged matters relevant to the search and withholding of requested records. The Court can order production of the Video now while allowing that discovery to proceed.

WHEREFORE, Plaintiff respectfully requests that the Court enter an order:

- (a) directing Defendants to produce the Video directly to Plaintiff, complete and in its native, unaltered form, within five business days, on the ground that no exemption has been established;
- (b) in the alternative and independently, finding good cause for disclosure of the Video under section 119.071(3)(a)3.d., Florida Statutes, consistent with Defendants' representation to the Court, and directing its release directly to Plaintiff within five business days;
- (c) vacating the August 27, 2026 Order's characterization of Plaintiff's August 17 argument as an ore tenus motion for a determination on confidentiality, to the extent that characterization treats Plaintiff as having conceded a request he did not make, without prejudice to the relief granted in (a) or (b) above;
- (d) only if the Court determines that further evidence or in camera inspection is necessary before granting (a) or (b), directing Defendants, within five business days, to file a sworn affidavit establishing the factual basis for the claimed exemption (identifying the system that made the April 4, 2025 recording, the person who determined it to be a security-system record, and what disclosure would reveal about the system) and to tender the Video to the Court for in camera inspection within three business days thereafter, and,

without adopting the Order's characterization of Plaintiff's August 17 argument as a request for a determination on confidentiality, and without prejudice to Plaintiff's position that no exemption was established and that Rule 2.420 governs, directing release of the Video directly to Plaintiff within three business days after the Court completes that inspection;

(e) directing Defendants to preserve the Video, all copies, backups, and associated metadata pending final disposition of this action and any appeal;

(f) confirming that nothing in this order affects the separate deadlines set in Paragraphs II(d) and II(e) of the August 27, 2026 Order (Doc. 89), which remain due September 10, 2026; and

(g) granting such other relief as the Court deems just.

Plaintiff followed up by email to counsel for the Thirteenth Judicial Circuit Defendants on September 8, 2026. As of the filing of this motion, no response has been received from any recipient. Plaintiff certifies that he attempted in good faith to confer and received no response. (Ex. E.)

PLAINTIFF'S REQUEST FOR ADMISSIONS**

Defendants, **THIRTEENTH JUDICIAL CIRCUIT COURT, TRIAL COURT
ADMINISTRATOR GINA JUSTICE, CHIEF JUDGE CHRISTOPHER C. SABELLA,
JUDGE KELLY AYERS, AND JUDGE MATTHEW FELIX** (hereinafter "Defendants"), by
and through their undersigned counsel, hereby provides the following responses to Plaintiff's
Request for Admissions.

Request No. 1: Admit that on April 4, 2025, during a public hearing in Case No. 24-DR-001150, Judge Kelly Ayers stated on the record that she could obtain video of the proceedings.

RESPONSE: Denied. The exact quote is “I will go get the camera footage and do it because I have not rolled my eyes at you.”

Request No. 2: Admit that prior to issuing the September 8, 2025, denial of access to the April 4, 2025, video, no employee, agent, or representative of the Thirteenth Judicial Circuit actually viewed the requested video footage.

RESPONSE: Denied.

Request No. 3: Admit that the video recording device that captured the April 4, 2025, hearing in Judge Ayers' courtroom captures at least some of the physical demeanor and facial expressions of the presiding judge.

RESPONSE: Admit. The video captures at least some of the physical demeanor, however the capture of facial expressions is limited.

Request No. 4: Admit that there is no existing Court Order formally determining the April 4, 2025, video to be confidential under Florida Rule of Judicial Administration 2.420(d) or (e).

RESPONSE: Admit. The video is confidential pursuant Florida Rule of General Practice and Judicial Administration 2.420(c)(8); Florida Statutes §119.071(3)(a); and Op Att’y Gen. Fla. 2015-06 (2015).

Request No. 5: Admit that no redaction, blurring, or audio-stripping of the April 4, 2025, video was attempted before denying Plaintiff’s public records request in its entirety.

RESPONSE: Admit. The video has not been altered in any way.

Request No. 6: Admit that prior to issuing the complete denial of access to the April 4, 2025, video, no documented analysis was performed by the Thirteenth Judicial Circuit to weigh the public interest in disclosure against the asserted security concerns.

RESPONSE: Admit. No analysis was needed as the video is confidential pursuant to Florida Rule of General Practice and Judicial Administration 2.420(c)(8); Florida Statutes §119.071(3)(a); and Op Att’y Gen. Fla. 2015-06 (2015).

Request No. 7: Admit that Defendants did not evaluate whether applying visual or audio redactions to the April 4, 2025, video would sufficiently mitigate the asserted security concerns while preserving the public's constitutional right of access to the remainder of the recording.

RESPONSE: Admit. No analysis was needed because the entire video is confidential pursuant to Florida Rule of General Practice and Judicial Administration 2.420(c)(8); Florida Statutes §119.071(3)(a); and Op Att’y Gen. Fla. 2015-06 (2015).

Order on Husband/Respondent's Motion to Transfer Venue and/or Second Verified Motion to Disqualify Judge Ayers, April 28, 2025, Case No. 24-DR-001150, Doc. 184 (2 pp.)

**ORDER ON HUSBAND/RESPONDENT'S MOTION TO TRANSFER VENUE AND/OR
SECOND VERIFIED MOTION TO DISQUALIFY JUDGE AYERS**

This matter came before the Court for consideration without hearing on the Husband/Respondent's Motion to Transfer Venue and/or Second Verified Motion to Disqualify Judge Ayers filed on April 24, 2025, by Respondent, in accordance with Florida Rule of Judicial Administration 2.330 and Section 38.10, Florida Statutes.

Because Fla. R. Jud. Admin. 2.330(h) requires the Court to accept all allegations in an initial motion for disqualification as true, the Court finds the Motion to be legally sufficient.

Accordingly, it is ORDERED that Husband/Respondent's Motion to Transfer Venue and/or Second Verified Motion to Disqualify Judge Ayers is hereby GRANTED, as to the Disqualification ONLY. The Court is not issuing a ruling as to the request to transfer venue.

The Clerk is directed to reassign this case according to the administrative provisions for the Family Law Division.

It is ORDERED in Tampa, Hillsborough County, Florida, on this 28th day of April, 2025.

CIVIL DIVISION

CHRISTOPHER HANSON, individually and as attorney for himself and attorney/next friend for his minor children,

Plaintiffs/Petitioners,

v. Case No.: 25-CA-010255

Division: B

THIRTEENTH JUDICIAL CIRCUIT, et al.,

Defendants/Respondents.

**[PROPOSED] ORDER ON PLAINTIFF'S MOTION FOR PRODUCTION OF THE
APRIL 4, 2025 HEARING VIDEO**

THIS CAUSE came before the Court on Plaintiff's Motion for Production of the April 4, 2025 Hearing Video and, in the Alternative and Without Waiver, Submission on Good Cause in Response to the August 27, 2026 Order, and on Defendants' response of September 2, 2026 to the Court's Order of August 27, 2026. The Court, having reviewed the motion, the response, the record, and the parties' submissions, and being otherwise fully advised, finds and orders as follows:

1. In its Order of August 27, 2026, the Court directed the Thirteenth Judicial Circuit to respond within seven days either agreeing that good cause exists for Plaintiff to receive the April 4, 2025 hearing-room video recording (the "Video") or stating why it does not, and provided that if Defendants failed to timely articulate good cause, the Court would enter an order finding good cause and direct release of the Video. Defendants' September 2, 2026 response states no fact about the Video, identifies no security interest that disclosure would impair, and states that Defendants will tender the Video to the Court upon order.
2. The custodian bears the burden of establishing an exemption. On the record before the Court, no affidavit, declaration, or other evidence establishes that the Video is a record "relating

directly to the physical security or firesafety of the facility or revealing security or firesafety systems" within section 119.071(3)(a), Florida Statutes, and no determination of confidentiality has been made under Florida Rule of General Practice and Judicial Administration 2.420.

3. On the ground that no exemption has been established, and independently on the ground that good cause is shown under section 119.071(3)(a)3.d., Florida Statutes, consistent with Defendants' representation to the Court, IT IS ORDERED that Defendants shall produce the Video directly to Plaintiff, complete and in its native, unaltered form, within five (5) business days of this Order, by electronic delivery to Plaintiff's e-service addresses of record, or, if file size requires, by secure file transfer, cloud download link, or physical media.
4. The August 27, 2026 Order's characterization of Plaintiff's August 17, 2026 argument as an ore tenus motion for a determination on confidentiality is VACATED to the extent it treats Plaintiff as having conceded a request he did not make, without prejudice to paragraph 3 above.
5. If the Court determines that further evidence or in camera inspection is necessary before paragraph 3 above may be carried out, Defendants shall instead, within five (5) business days of this Order, file a sworn affidavit identifying the system that made the April 4, 2025 recording, the person who determined it to be a security-system record, the date of that determination, and what disclosure would reveal about the system, and shall tender the Video to the Court for in camera inspection within three (3) business days thereafter.
6. Upon any in camera inspection under paragraph 5, and without adopting any characterization of Plaintiff's August 17, 2026 argument as a request for a determination on confidentiality, and without prejudice to Plaintiff's position that no exemption was established and that Rule

2.420 governs, the Court finds good cause under section 119.071(3)(a)3.d., Florida Statutes, and, consistent with Defendants' representation that no other exemption will be asserted, Defendants shall produce the Video directly to Plaintiff, complete and in its native, unaltered form, within three (3) business days after the Court completes that inspection.

7. Defendants shall preserve the Video, all copies, backups, and associated metadata pending final disposition of this action and any appeal.
8. Nothing in this Order affects the separate deadlines set in Paragraphs II(d) and II(e) of the August 27, 2026 Order (Doc. 89), which remain due September 10, 2026.

DONE AND ORDERED in Chambers in Clearwater, Pinellas County, Florida, this ____ day of _____, 2026.

Good morning, I am following up about these issues below. Please let me know if the 13th Circuit is going to release the video. Even if someone were to suddenly sign an affidavit on the security or surveillance status of the video, questions on what took so long arise in a way where the only reasonable course of action is production.

I will proceed with filing the motions described below this morning. Please let me know if there is any interest in resolving these issues.

I continue to request a conference with a supervisor within the Attorney General's office. Please let me know if that is something you are willing to accommodate. Thank you for your cooperation.

Subject: Re: Case 25-CA-010255: Conferral on motions and questions on any evidence supporting "security" explanation and identification of withheld records

I apologize for that stray keyboard strike and send earlier. This is the full email below now:

Good afternoon, I am in the final stages of drafting a couple of motions in this matter. The first relates to the release of the video evidence from April 4, 2025. It appears to me that you have abandoned the "security" and "surveillance" labels. Those terms were specifically used in extensive communications and pleadings and even in hearings as justification to withhold the video for over a year now.

I take issue with the court's interpretation of anything I said during the hearing as a motion to determine confidentiality. Before the court ever gets to that point, the court must consider whether there is any evidence to support the surveillance or security label in the first place. My motion asks the court to order production of the April 4, 2025, video within 3 days, absent the 13th Circuit and the Attorney General's office coming forward with at least a signed affidavit confirming the security and surveillance nature of the system that captured the April 4, 2025, video.

Perhaps you can just tell me finally here. Will the 13th Circuit produce a signed affidavit confirming the security and surveillance nature of the system that captured the April 4, 2025, hearing video? ____yes or ____no.

If not, will your client simply turn the video over to the Court? And myself? It would show a bit of good faith to do that sooner rather than later.

The other motion relates to identification of the documents that the 13th Circuit Court has withheld without specification for over a year. The court's August 27, 2026, order suggests that the 13th Circuit Court produced records responsive to my requests except those it claims are exempt, and it gives you until September 10 to identify each withheld record and the basis for withholding it. The order does not say what "responsive" means, does not direct that anything be produced, and does not require any description of the search. And most importantly the court's August 27, 2026, order ignores the fact that the 13th Circuit has still not identified the documents that it is concealing from public access. There must be an accounting for the documents available if the in-camera inspection is going to have any meaning. There also needs to be certification that the search was exhaustive and the documents produced for in-camera inspection are

complete.

The 13th Circuit and the Attorney General Office's conduct to date justifies and even requires that the Court carefully outline its requirements if meaningful application of the law is to be possible.

Some of the important records are the ones listed in the Amended Petition's prayer for relief, paragraph A, by custodian and date range. Those include communications about scheduling or attendance at the December 13, 2024 hearing (December 1 to 20, 2024) and at the January 9, 2025 hearing (December 21, 2024 to January 20, 2025), by Judge Ayers, her judicial assistant, or anyone else at the Circuit. A hearing that was scheduled and attended generates scheduling and attendance records, and the August 21, 2025 letter said records exist for those categories. The 226 pages I received contain nothing about scheduling or attendance at either hearing, and I said so on August 31, 2025.

The motion asks the court to require, within the same fourteen days, production of every record in those categories, whether or not you claim it is exempt: records you do not claim are exempt go to me, and every record you withhold on any ground goes to the Court for in camera review, identified by date, author, recipient, subject, and the basis claimed. That covers every email, text message, calendar entry, scheduling-system entry, and note containing my name or the case number, for every custodian named in paragraph A and anyone else at the Circuit, across the full date ranges. It also asks for a sworn description of the search (accounts, systems including text messages and the scheduling system, personal devices used for court business, search terms, and date ranges) and a sworn statement whether the December 13 and January 9 records exist and, if you contend they do not, what further search remains possible.

Same question. Will the 13th Circuit, by September 10, produce to me every non-exempt record in those categories, tender every withheld record to the Court for in camera review with its date, author, recipient, subject, and claimed basis, and file a sworn description of the search? _____ yes or _____ no.

Rule 1.202 conferral. Please state your clients' position on each motion by Monday, September 7, 2026, so I can complete the certificates. If I do not hear from you by then, I will certify that I attempted to confer and received no response. If you would like to discuss anything regarding the case, please let me know.

And finally, I reiterate my request each as a citizen and as a litigant, for a conference with a supervisor at the attorney general's office. Please let me know if that's something that you will allow at this point? Thank you for your cooperation.
