

Stat
the

(b), Fla. Stat. — unlawful refusal to comply with
records request; deficient May 8, 2026 production

From

Date:

Dear Ms. Massoudi and Records Custodian:

This letter is formal written notice under section 119.12(1)(b), Florida Statutes, that the Office of the Attorney General has unlawfully refused to comply with my public records request of February 11, 2026, and that its May 8, 2026 production does not cure that refusal. I provide this notice as a precondition to a civil action to compel compliance and to recover attorney's fees and costs. It supplements, and does not withdraw, my prior § 119.12(1)(b) notice of March 13, 2026.

1. The request. On February 11, 2026, I delivered to your office a Chapter 119 / Article I, Section 24 request for records regarding the OAG's conduct in addressing my prior complaints and its representation of the defendants in *Hanson v. Thirteenth Judicial Circuit*, No. 25-CA-010255. The request set out eight enumerated categories (I.1–I.5 and II.1–II.3) and expressly required a privilege log for any withheld record. Your office quoted the request verbatim in its April 27, 2026 cost estimate and again in its May 8, 2026 response; there is no dispute as to its terms.

2. The May 8, 2026 production is an unlawful refusal. Your May 8, 2026 letter states that the attached 37-page file "will serve to complete" the request. It does not. The 37 pages consist entirely of internal case-routing emails (Paula Trigg → Ivy Rollins → Donna Moulton), the December 19, 2025 Letter of Authorization from the Office of the State Courts Administrator, the January 5–6, 2026 assignment of SAAG Schwieterman, the January 6, 2026 Bajger acceptance letter, and document-management print headers — i.e., responsive material for Category I.5 (assignment records) alone. As to the other seven categories the OAG produced no records, asserted no exemption with any statutory basis, provided no privilege log, and did not state that responsive records do not exist:

- Categories I.1–I.4 (conflict checks; my own correspondence to OAG personnel; investigation/intervention requests; § 16.01 authority analysis; § 16.015 outside-counsel determination): no responsive records, no exemption log, no "none exist" statement.
- Categories II.1–II.3 (audit trails/metadata; personal-device records; IT/security correspondence): no responsive records, no exemption log, no "none exist" statement.

My own correspondence to the OAG was withheld. Category I.1 expressly sought "all correspondence sent from Plaintiff to any personnel at the state AG's office." My previous emails to the OAG's office, to Attorney General Uthmeier, and to SAAG Schwieterman are squarely responsive and indisputably within the OAG's possession. None were produced. That alone establishes the search or production was incomplete and forecloses any good-faith-completeness defense.

Your letter's phrase "non-exempt public records materials" signals that records were withheld as exempt — yet it identifies not a single withheld record, cites no statutory exemption, and provides no log. Under section 119.07(1)(d)–(f), the OAG must state the basis of any claimed exemption and the statutory citation, and on request must state the reasons in writing and with particularity. A production that ignores seven of eight categories, withholds responsive records without a log, and is then declared "complete" is a constructive denial — an unlawful refusal under Chapter 119.

3. What is demanded to cure. To resolve this without litigation, I demand that within five (5) business days of this notice the OAG:

a. Produce all responsive records in all Categories, in native electronic format with metadata intact; or, for any category as to which no responsive records exist, state that fact in writing. b. Produce, specifically, all correspondence from me to any OAG personnel (Category I.1) and all communications since January 1, 2025 requesting OAG investigation or intervention as to the 13th Circuit (Category I.2). c. For every record or portion withheld as exempt, produce a privilege log stating the date, author, all recipients, subject matter sufficient to establish the exemption, the specific statutory citation, and the number of pages withheld, as § 119.07(1)(d)–(f) and my request require. d. Identify the custodians, mailboxes, devices, and systems searched, the search terms used, and the date range applied, and confirm the search was not improperly cut off as of February 11, 2026.

4. Consequences of non-compliance. If the OAG does not fully cure within five (5) business days, I will file a Petition for Writ of Mandamus in the Circuit Court of the Second Judicial Circuit, in and for Leon County, to compel compliance, and will seek all attorney's fees and costs available under section 119.12, Florida Statutes. The OAG is the Department of Legal Affairs — an executive-
subject to Chapter 119 — so the fee provision applies in full. If you contend
ponded to any portion of this notice, identify that response specifically
your reply.

. Hanson, Esq.
