Ms. Schwieterman,

Respectfully, your email inverts the burden of proof Florida law actually imposes, ignores the procedure the Court has already specified, and rests entirely on a factual characterization your clients have never supported with admissible evidence.

There is no evidence whatsoever to support the security label... Not even an affidavit. **The presumption is openness, and it reaches the judicial branch.** Article I, Section 24(a) of the Florida Constitution provides that "[e]very person has the right to inspect or copy any public record made or received in connection with the official business..." and "specifically includes the legislative, executive, and judicial branches of government."

It's very clear that this new attempt at delay, to wrongfoot the burden of proof on the video issue has no basis causing the further delays you seek. The impact of past delays caused by the 3 chances at a writ response and additional unnecessary hearings is devastating for petitioner who remains under retaliation from Defendant Judge Felix. Judge Felix continues to show open and obvious bias against Petitioner in the underlying family law proceedings while refusing to even look at the video of the 4-4-25 GAL hearing with Ayers.

Additionally, **your clients' verbatim quotation of Defendant Judge Ayers's April 4, 2025 statement is a binding party-opponent admission that contradicts the threshold predicate of the exemption theory.** In your response to RFA No. 1, you placed the following verbatim sentence on the litigation record: *"I will go get the camera footage and do it because I have not rolled my eyes at you."* That statement is admissible against the Judicial Defendants under multiple, independent provisions of Section 90.803(18), Florida Statutes:

(a) under (18)(a), as "[t]he party's own statement in either an individual or a representative capacity" — Judge Ayers is a named Defendant, and the statement is her own, made in her individual and judicial capacity at a hearing she was presiding over;

(b) under (18)(b), as "[a] statement of which the party has manifested an adoption or belief in its truth" — by verbatim reproduction of the quotation in a sworn discovery response on behalf of all Judicial Defendants, the Judicial Defendants have manifested adoption of the statement as accurate; and

(c) under (18)(c), as "[a] statement by a person specifically authorized by the party to make a statement concerning the subject" — counsel of record is authorized to make statements concerning the subject matter on behalf of represented parties.

There is no good faith basis for these continuing delays.

The Court system, in the Tampa Bar area and beyond, is showing its willing to make litigants and even families suffer to protect insiders from accountability for their own action.... caught on video and offered by the judge.

The case is ripe for entry of the writ. The court has a constitutional obligation to support constitutional transparency and the Rules demand the process be expedited.

If the Court is going to require another hearing, I'm at its mercy. I just request that we expedite anything and everything we can because these delays may be causing irreparable harm to my family.

Please let me know if you need anything else from me. Thank you for your cooperation.

Good Morning Mr. Hanson,

This is incorrect. There are steps you must complete for the records custodian to release the video you have requested. Please review Florida Statutes, Section 119 for those steps, which were cited in the letter you received from the public records request or the motion to quash that was filed in the other 13th Circuit case of yours.

Subject: Re: 13th Circuit Case #25-CA-010255

Good morning. Ms Schweiterman stated yesterday that the 13th circuit was going to turn over the video but was waiting on me for payment or something? I was not able to inquire about the specifics but I am doing so now. Ms Schweiterman - pls let me know on that asap. Please let me know what you need from me to get materials from the 13th circuit. As far as the hearing, Court is constitutionally obligated to rule on the peremptory writ and adequacy of the return immediately. What is the delay on that? Anything on the reconsideration is secondary to that constitutional duty. However if we still need to address that motion after the court enters its order and hour should be sufficient. Thanks. Chris

Good afternoon,

The docket now shows Plaintiff's Combined Motion for Interlocutory Reconsideration, Rehearing Under Fla. R. Civ. P. 1.530(g), and Clarification On Orders At Docket 80 And 81.

Please advise the estimated time necessary to present your motion and argument and I will provide Judge Coleman's next available hearing times so that counsel can confer and select from those dates.
