Re: Public Records Request – Handling of Correspondence with Chief Judge Christopher C. Sabella's Office Regarding Case No. 24-DR-001150

Dear Court Administrator/Records Department and to whom it may concern
(publicinfo@fljud13.org; mikemoore@fljud.org; TCA@fljud13.org),

Pursuant to Chapter 119, Florida Statutes (Public Records Act), Article I, Section 24 of the Florida Constitution, and Chapter 286, Florida Statutes (Government in the Sunshine Law), I request access to inspect and copy all public records related to the handling of concerns described in the letters and emails I sent to Chief Judge Christopher C. Sabella and/or his judicial assistant(s) concerning Case No. 24-DR-001150 (In Re: The Marriage of Sarah Hanson and Christopher Hanson):

History of communication and concerns shared with Judge Sabella:

1. January 22, 2025: Email to Ms. Novia (Sabella's assistant) providing background on becoming pro se and requesting a discussion. Issues impacting public confidence in the judiciary: Attorneys abruptly withdrawing after private calls with Davis, creating fears of repeated interference, and Ayers' extreme bias denying fair process in a simple discovery matter turned into prolonged litigation harming family health and coparenting.
2. February 12, 2025: Initial letter to Chief Judge Sabella regarding ethical violations by Mr. Scott Davis and Judge Ayers' cover-up of misconduct. Issues impacting public confidence in the judiciary: Davis's intentional strategy to delay, harass, and conceal evidence of marital assets fraud, including veiled threats involving a weapon, while Ayers suppressed inquiries, showed bias by calling Davis a "teddy bear," and potentially purchased her judicial position through self-funded campaign (over 90% personal/family money), violating due process and judicial canons.

3. March 11, 2025: Follow-up email to Ms. Novia inquiring about Sabella's availability and mentioning an upcoming petition for writ of certiorari. Issues impacting public confidence in the judiciary: Ayers' intensified vindictiveness after the February letter, including excusing Davis's ethical violations (e.g., non-compliance with discovery orders), silencing discussions of misconduct, and allowing baseless motions that weaponize children as leverage to conceal financial fraud.
4. August 13, 2025: Attached initial appellate brief sent in follow-up correspondence, detailing systemic corruption. Issues impacting public confidence in the judiciary: Widespread 13th Circuit impartiality enabling Davis's obstruction (e.g., universal discovery objections, retaliatory filings), Ayers' gaslighting and eye-rolling during hearings, and failure to address ethical violations, resulting in over a year of delays, health impacts, and child harm from artificial conflict.
5. August 16, 2025: Email to cornelcm@fljud13.org (Sabella's office) with attached appellate brief, re: Continuing issues with Judge Ayers, noting worsening since February. Issues impacting public confidence in the judiciary: Post-February retaliation including Ayers' contemptuous treatment (e.g., depriving record creation by ruling without hearing), facilitating Davis's concealment of evidence, and circuit-wide "clubhouse culture" protecting insiders at the expense of litigants' due process and family welfare.

Records requested from the 13th Circuit Court include, but are not limited to:

- All emails, text messages, memos, notes, logs, or any other form of written or electronic communication sent or received by any employee of the 13th Judicial Circuit and/or the Clerk's Office for the 13th Judicial Circuit, from January 1, 2025, to the present, regarding these correspondences (e.g., discussions about receipt, review, forwarding, or response), including but not limited to communication.
- All documentation related to any action any employee of the 13th Judicial Circuit and/or the Clerk's Office for the 13th Judicial Circuit previously took, is taking, or plans to take in relation to these correspondences, including internal discussions, referrals to other departments or individuals, or decisions not to act and how those are justified.
- Records of whether these emails or letters were forwarded to anyone (inside or outside the court), and if so, to whom, when, and why.

Emails and text messages related to public business are public records under Chapter 119, even if on personal devices, as they constitute "records" if prepared in connection with official duties (Section 119.011(12), F.S.). Please provide the records in electronic format

(e.g., PDF) if available, or advise on inspection arrangements. I am willing to pay reasonable fees for production. If you believe any exemption applies, please provide a written explanation with statutory citations based on the relevant facts. Respond within a reasonable time, as required by law.

Please let me know if you have any questions or if there is another point of contact for a more efficient response.

Thank you for your assistance.

Sincerely,

Christopher Hanson

Pursuant to Chapter 119, Florida Statutes (Public Records Act), Article I, Section 24 of the Florida Constitution, and Chapter 286, Florida Statutes (Government in the Sunshine Law), I request access to inspect and copy all public records related to Judge Kelly Ayers' involvement in any and all disqualification scenarios, complaints, or concerns about her impartiality, honesty, and professionalism. Specifically, the undersigned has received a statement that Judge Ayers previously was disqualified related to guardian ad litem (GAL) issues, and/or associated with the law firm Ayo and Iken, or an associated attorney. Please search and produce records from January 1, 2020, to the present.

Re: Demand for Immediate Compliance and Clarification Regarding Public Records
Requests 6, 7, and 8, all sent on October 14, 2025 – Handling of Correspondence with
Chief Judge Christopher C. Sabella's Office, Communications Involving Judge Felix, and
Judge Kelly Ayers' Disqualification Records Regarding Case No. 24-DR-001150

Dear Court Administrator/Records Department and to whom it may concern
(publicinfo@fljud13.org; mikemoore@fljud.org; TCA@fljud13.org, cornelcm@fljud13.org),

This letter follows up on my public records requests (6, 7, and 8) dated October 14, 2025, concerning the handling of correspondence with Chief Judge Christopher C. Sabella's office, communications involving Judge Felix, and Judge Kelly Ayers' disqualification records regarding multiple relevant cases.

I acknowledge receipt of the email from Ms. Christina Novia dated October 14, 2025, which states only that my requests were received and forwarded to the legal department for response. This limited acknowledgment does not satisfy the requirements under Chapter 119, Florida Statutes (Public Records Act), which mandates a timely, substantive response, including either production of records or a detailed explanation of any exemptions or delays. Specifically, Section 119.07(1)(a), Florida Statutes, requires that the custodian of public records "shall promptly provide the requested records or notify the requestor of the records' availability or the reason for denial." The email received fails to provide any substantive response, timeline, or explanation, and thus does not comply with this statutory mandate. Nearly two weeks have past, and I've received no documents nor update of any kind.

Further, Florida law require that the custodian provide a meaningful acknowledgment that the request is being processed and communicate any delays or issues promptly. The minimal email received does not confirm any substantive review, cooperation, or timeline for response, and therefore fails to meet the legal obligations.

The failure to provide any documents, explanation, or confirmation of review and cooperation constitutes a failure to comply with statutory obligations and impedes my right to access public records. As you are aware, I have made a detailed record about active, ongoing corruption in the 13th Circuit impacting my and my children's welfare. Obtaining access to these records is a critical part of ongoing efforts to obtain fairness and finality in the divorce proceedings, which simply cannot occur without the financial discovery at the center of this case.

Accordingly, I demand immediate production of all responsive records, an explanation for the delay to date, and should the Court withhold any records, a written explanation citing sufficient descriptive language and specific statutory exemptions, as required by law. Please also provide a timeline for when I can expect full compliance.

Please be advised that if the 13th Judicial Circuit fails to comply promptly, I will pursue all available legal remedies, including a petition for writ of mandamus and/or a motion to compel production. I am also seeking attorney fees and costs under Section 119.12, Florida Statutes.

This letter serves as a formal demand for compliance and notice of my intent to escalate enforcement if necessary. Thank you for your prompt attention to this matter.

Sincerely,

/s/Christopher Hanson

Subject: Fw: Additional follow up on Public records requests 6, 7, and 8 under F.S. Chapter 119, Florida Constitution, and Rule 2.420
Date: Wednesday, November 12, 2025 9:54:25 AM

Good morning. I am again forwarding the attached letter and email dated October 27, 2025, regarding my outstanding public records requests (including but not limited to Requests 6, 7, and 8 from October 14, 2025). As of today, November 12, 2025, I have received no substantive response, production of records, explanations for delays, or timelines for compliance, despite the requirements under Article I, Section 24 of the Florida Constitution, Florida Rule of Judicial Administration 2.420, and under Chapter 119, Florida Statutes. I am arguing that the Courts (and the legislature) need to reassess the holding in Ake given the level of corruption that's infested the judiciary since that holding.

This continued non-responsiveness, and apparent intent to conceal, constitutes an unlawful refusal and constructive denial, further evidencing bad faith. Pursuant to Section 119.12(1), Florida Statutes, declaratory relief statute, and relevant common law, I want to further confirm that I intend to seek attorney's fees and costs for this unreasonable denial, including any enhanced awards for bad faith and intent to cover for oneself and his/her fellow judiciary employees. Please also allow this letter to confirm my intent to pursue sanctions under f.s. 57.105 for the failure to comply with these 8 public records requests, should the concealment continue after the 21 day safe harbor provision. The ongoing delays are causing irreparable harm to my family and obstructing justice in the underlying case (24-DR-001150). Even worse, it seems that the Court and all Florida oversight up the supreme Court is fully on board with covering up the corruption even to the ongoing detriment of a family that came to the Court with a simple problem with an obvious solution, over a year and a half ago.

This is incredibly egregious misconduct where the 13th Circuit actors are circling the wagons to fight against transparency and justice, in direct contradiction to your sworn duties. Perhaps there will be a whistleblower that will help bring this to an end. It's causing great hardship on me and my family, but I assure you that I will find time to fully pursue this either way. It's a matter of how much the Court system is willing to damage a family in its obsession with protecting insiders over all else.

I demand immediate production of all responsive records, a detailed explanation for any withholdings with specific statutory or rule-based citations, and confirmation of search methods including devices and applications checked). Please also provide an explanation for the delays and inconsistent handling with these more recent requests compared to the earlier ones.

Please also confirm for me if there is a new court administrator in place. I understand Ms. Justice let her position by 10-14-25. I'm continuing to use the TCA email for now. Thank you for your cooperation.

Sincerely,
Christopher Hanson

Good afternoon all. Please find my formal follow up letter on the October 14, 2025 public records requests attached. These requests were handled very differently. I never received contact information for the legal department. I'm happy to communicate with them directly if that's easier.

I'm just hoping for timeliness and efficiency. I'd much prefer resolving this over filing more litigation. Perhaps we can even resolve the pending litigation? It's critical to the handling of my ongoing divorce proceedings to get this information. Please respond at your earliest opportunity. Thank you for your cooperation.
