

**IN THE DISTRICT COURT OF APPEAL
OF THE STATE OF FLORIDA SECOND DISTRICT**

CASE NO.: 2D2025-1936

Lower Tribunal No.: 24-DR-001150

CHRISTOPHER HANSON, Appellant,

v.

SARAH HANSON, Appellee.

**MOTION TO SUPPLEMENT THE RECORD WITH VIDEO OF 4/4/25
HEARING AND RECUSAL DOCUMENTS**

COMES NOW the Appellant, Christopher Hanson, pursuant to Florida Rule of Appellate Procedure 9.200(f), and respectfully moves this Court to supplement the record with (1) the video recording of the hearing held on April 4, 2025 (or at least the portion Judge Ayers placed at issue in the case through her offer to obtain and review), and (2) the four-page document submitted by Judge DePaul (withheld from a public records request) explaining her recusal. In support thereof, Appellant states:

1. Florida Rule of Appellate Procedure 9.200(f) authorizes supplementation of the record when an item considered by the trial court is omitted. The rule provides that "if there is an error or omission in the record, the court may correct the record" and "must direct a party to supply the omitted parts of the record" when necessary.
2. The April 4, 2025 hearing is critical to the underlying proceedings and serious issues before this Court, involving judicial misconduct and procedural irregularities. A transcript of the hearing is included in the record (Appendix to Initial Brief, pp. 1122-1341), but the video recording is imperative based on Judge Ayers bringing it into the proceedings and to fully convey the tone, interruptions, and courtroom dynamics that are central to Appellant's claims.
3. Just after Appellant/Husband pointed out the eye roll as reflected on the transcript, Judge Ayers stated: "If you want me to go get the video, I will." (Appendix to Initial Brief, pp.

1196). This offer placed the video directly at issue and made it part of the proceedings. Appellant accepted the offer, reiterated the demand for the video at the end of the hearing, and even requested the following day as well, but the video was never produced. (Appendix to Initial Brief, pp. 1196, 1314 and Exhibit A/pp. 8-9 below). The Court continues in its apparent efforts to conceal the very evidence the Judge offered, despite public records requests, follow-ups, and direct requests through the case itself. (Exhibits A-H, p. 8-58 below

4. The video presents a unique opportunity to test each side's veracity against objective evidence the video provides. If Appellant/Husband is wrong, and there is no eye roll, obviously that would provide a (or, more aptly, the first and only) fact inconsistent with the corruption allegations. If the video shows what Appellant/Husband knows it will, it provides conclusive evidence of dishonesty and bias from the bench, perfectly consistent with Husband's allegations throughout the record. It's critical for the Court to review that video for a meaningful appellate process on these issues central to public confidence in the judiciary.
5. On April 5, 2025, Appellant submitted a written request to the Thirteenth Judicial Circuit for release of the video recording of the 4/4/25 hearing. A copy of this request is attached to the motion below as Exhibit A at p. 8-9. No response was received.
6. Appellant also made multiple public records requests under Florida's Sunshine Law, including requests for emails, text messages, and communications related to the 4/4/25 hearing and Judge DePaul's recusal. These requests were met with evasive responses or incomplete disclosures. See Exhibits B, D-H at p.8-9, 21-58 below).

7. The court's response dated September 8, 2025, confirms that a video record exists for the April 4, 2025 hearing but asserts that it is exempt from public disclosure under Fla. R. Admin. 2.420(c)(8) and Fla. Stat. §119.071(3)(a). (See Exhibit C below, p. 20) The trial court has still not produced the video nor offered any responses to questions raised in Appellant/Husband's follow up efforts. (See Exhibit D-H p. 21-58 below).
8. The court's claim that the video is a "security recording" is inconsistent with the absence of equivalent footage from other days. If the video were truly part of a routine security system, similar recordings would exist for adjacent dates. The selective existence and concealment of this video suggest it is not merely a security record but a substantive courtroom recording relevant to the proceedings.
9. The evasive conduct in responding to public records requests further supports Appellant's claim of institutional bias and lack of transparency. The refusal to release materials that were clearly considered (even if improperly) by the trial court undermines public confidence and the integrity of the appellate process.
10. Appellant's initial request was immediate and appropriate follow up attempts at getting the evidence from the Court only resulted in more concealment, further enlarging the record and complicating arguments in this case.
11. On August 31, 2025, Appellant/Husband sent a follow-up email to the court's records department pointing out several failures in the initial response, including issues relating to the video, unreadable documents, missing materials, and improper withholding. See Exhibit D, pp. 21-27).
12. On September 4, 2025, Appellant/Husband sent another follow-up email reiterating concerns and adding a new issue regarding correspondence between Judge Ayers and

Scott Davis about drafting a summary of Appellee/Wife's testimony. See Exhibit E (pp. 28-34).

13. On September 9, 2025, Appellant/Husband submitted email correspondence challenging the redaction of Judge DePaul's communication on recusal. See Exhibit F (pp. 35-42).

14. That same day, Appellant/Husband submitted email correspondence providing facts, analysis, and support for the need to release the April 4, 2025 hearing video. See Exhibit G (pp. 43-51).

15. Also on September 9, 2025, Appellant/Husband submitted email correspondence highlighting the lack of communications produced regarding various hearings, arguing that the court's production is clearly strategic and incomplete. See Exhibit H (pp. 52-58).

16. The absence of the video materially prejudices Appellant's ability to demonstrate the full scope of judicial bias and misconduct alleged in this appeal. The transcript alone does not capture the interruptions, tone, and courtroom behavior that are relevant to Appellant's constitutional and procedural claims.

17. In addition, Appellant respectfully requests that the record be supplemented with the four-page document relating to Judge DePaul explaining her recusal. The recusal is referenced in the lower tribunal's docket at 187, and included below as Exhibit I at p. 59. It is directly relevant to the issue of judicial bias and may contain admissions or commentary that bear on the fairness of the proceedings. Their relevance to the issues on appeal warrants judicial inquiry or in camera review.

18. The Florida Fourth District Court of Appeal in *Poteat v. Guardianship of Poteat*, 771 So. 2d 569, 573 (Fla. 4th DCA 2000), held that supplementation under Rule 9.200 is appropriate for items "considered by the trial court" but omitted from the record. This

includes documents that were filed and referenced in the proceedings, even if not formally admitted into evidence.

19. Exclusion of the April 4, 2025 video and Judge DePaul's recusal documentation deprives the appellate court of a complete view of the lower tribunal's conduct and undermines the transparency required for meaningful appellate review and confidence in the judicial system. As stated in *Thornber v. City of Fort Walton Beach*, 534 So. 2d 754, 755 (Fla. 1st DCA 1988), supplementation is proper when the trial court had access to the item up for consideration and the evidence Husband seeks for appellate purposes was all part of the record before the motions and order at issue on this appeal.
20. In the alternative, if the Court declines to formally supplement the record with the video and Judge DePaul's recusal explanation, Appellant respectfully requests that the Court conduct an in camera review of the evidence to assess its relevance and probative value to the issues on appeal. Appellant also respectfully requests partial release of the video and/or recusal documentation should the Court find that appropriate.
21. Appellant acknowledges that these are serious allegations. If the Thirteenth Judicial Circuit acted appropriately, it should welcome the scrutiny that comes with supplementing the record. Transparency is the best defense against claims of corruption, and the Court's willingness to review the requested materials will help restore public confidence.
22. The requested supplementation is narrowly tailored, supported by existing Record evidence references; Supplementing the record with this information is necessary to ensure that the appellate record reflects all relevant materials bearing on the fairness and integrity of the lower tribunal proceedings.

WHEREFORE, Appellant respectfully requests that this Court grant this Motion to Supplement the Record and take such further action as may be just and proper.

Respectfully submitted,
/s/ Christopher Hanson

Good morning. Please excuse this interruption. It is on a separate issue from the prior request for reassignment of my case. I appreciated Chief Judge Sabella's letter on the topic. I made the mistake of assuming but now understand that Judge Sabella does not have that authority. I apologize for the inconvenience and wasted time related to that.

We had a hearing from 1-5 with Judge Ayers yesterday. I believe it was courtroom 401. I'm continuing to represent myself (based on some relevant facts I'll omit here). During the hearing yesterday, Judge Ayers very clearly rolled her eyes in response to something I said, while looking directly at me. This happened on at least one occasion where it was unmistakable. There were certainly some other occasions where it seemed quite clear that Judge Ayers exhibited disdain and contempt for me that her face cannot hide.

During the hearing, I spoke up and referenced that Judge Ayers had clearly rolled her eyes at me. She denied it and immediately asked me if I wanted her to "check the video." I responded, "yes" please check the video. Again at the end of the hearing, I asked Judge Ayers to pull the video she previously suggested pulling. She refused.

I would like to make sure the video is at least preserved for future proceedings. I'm copying in the email for the clerk/custodian of records from my online research. I would like to request the video from the hearing under all applicable sunshine laws/freedom of information act. I will research precisely how to do that, but for now, my concern is that the video is maintained.

Please forgive the interruption. I hope that you will one day have a chance to review the facts of this case. You will see how much I did not want any of this. Thanks for any assistance or guidance you can offer.

Hi Ms. Novia. I called earlier this afternoon and got your voicemail.

I'm now a pro se litigant in this divorce case. I'm an attorney but I've practiced solely in work comp defense with no experience in Circuit Court whatsoever. Wife is also an attorney, but she is represented by Scott Davis in this matter.

I figured emailing is easier than leaving a message. And I can copy opposing counsel to give you a little background on the issues in case that will move things along for us. I took out many details as I can provide those by email if requested or I'll just put everything in the formal motions and complaints if all the formalities need to be done.

I thought this would've been resolved months ago, which is precisely the reason I'm now raising the complaint - discovery issues from June are still not resolved. The last thing I want to do is drag this out or make it more stressful for any involved. However, this issue is too important for my family to take chances on a situation where I don't feel like I'm getting anything close to due process.

I've already started working on the motions addressing my concerns with Judge Ayers and bias in favor of the attorneys over the litigants and specifically against me. It will take some time as the documentation is extensive. I was reaching out to see if the Chief Judge Sabella has any preferred manner of dealing with this type of an issue?

Also, I did not copy Judge Ayers although I will certainly do so if requested.

Thank you for your attention to this matter and I look forward to hearing from you.

Re: Public Records Request – Email and Text Communications of Judge Kelly Ayers and all other 13th Circuit representatives relating to scheduling or attendance at the 12-13-24 hearing.

Dear Court Administrator/Records Department (publicinfo@fljud13.org; recording@hillsclerk.com; publicrecords@hillsclerk.com),

Pursuant to Chapter 119, Florida Statutes (Public Records Act), Article I, Section 24 of the Florida Constitution, and Chapter 286, Florida Statutes (Government in the Sunshine Law), I request access to inspect and copy all emails and text messages and/or any other form of written communication, sent or received by Judge Kelly Ayers, her judicial assistant, (Dwauna Heyward), and/or any other 13th Circuit representative who participated in scheduling the 12-13-24 hearing on Case No. 24-DR-1150, In Re: The Marriage of Sarah Hanson and Christopher Hanso. Specifically, I'm requesting all of these materials from December 1, 2024, to December 20, 2024, including communications with court staff, attorneys and/or their agents, or others about scheduling and/or attendance at the hearing on December 13, 2024.

Emails and text messages (even on a private phone) related to public business are public records under Chapter 119, even if on personal devices, as they constitute "records" if prepared in connection with official duties (Section 119.011(12), F.S.). For judicial

communications about case scheduling, they are public unless exempt. No exemption applies here, as divorce scheduling is generally public. Please provide the records in electronic format if available, or advise on inspection arrangements. I am willing to pay reasonable fees for production. If you believe any exemption applies, please provide a written explanation with statutory citations so that we may address the matter in the Courts. Respond within a reasonable time, as required by law and please let me know if you have any questions or if there is another point of contact that will respond more efficiently. Thank you for your assistance.

Dear Court Administrator/Records Department (publicinfo@fljud13.org; recording@hillsclerk.com; publicrecords@hillsclerk.com),

Pursuant to Chapter 119, Florida Statutes (Public Records Act), Article I, Section 24 of the Florida Constitution, and Chapter 286, Florida Statutes (Government in the Sunshine Law), I request access to inspect and copy all visual and audio recordings from the following hearings in Case No. 24-DR-1150, In Re: The Marriage of Sarah Hanson and Christopher Hanson, Division D, including both live and Zoom formats:

Docket #90 – December 19, 2024 hearing

Docket #109 – January 9, 2025 hearing

Docket #118 – January 21, 2025 hearing

Docket #152 – February 12, 2025 hearing

Docket #155 – October 28, 2024 hearing

Docket #158 – December 13, 2024 hearing

Docket #192 – April 22, 2025 hearing

Docket #198 – April 4, 2025 hearing

Court hearings are public proceedings, and videos or recordings of them are public records under Chapter 119 if created or maintained by the court (e.g., via official recording systems). The Florida Supreme Court has emphasized that access to public video records "should not be denied or left to the unfettered discretion of the trial court," to ensure transparency. In this case, the transcript from April 4, 2025 (Page 74), shows Judge Kelly Ayers stating that camera footage exists and suggesting she'd retrieve it, confirming it is a public record subject to disclosure.

Please provide the records in electronic format if available, or advise on inspection arrangements. I am willing to pay reasonable fees for production. If you believe any exemption applies, please provide a written explanation with statutory citations so that we may address the matter in the courts. Dear Mr. Moore, mike.moore@fljud13.org, Court Administrator/Records Department (publicinfo@fljud13.org; recording@hillsclerk.com; publicrecords@hillsclerk.com),

Pursuant to Chapter 119, Florida Statutes (Public Records Act), Article I, Section 24 of the Florida Constitution, and Chapter 286, Florida Statutes (Government in the Sunshine Law), I request access to inspect and copy all emails and text messages and/or any other form of written communication, sent or received by Judge Kelly Ayers, her judicial assistant (Dwauna Heyward), and/or any other 13th Circuit representative who participated in communications related to the April 7 request or April 4, 2025, hearing on Case No. 24-DR-001150, In Re: The Marriage of Sarah Hanson and Christopher Hanson. Specifically, I'm requesting all of these materials from April 1, 2025, to May 1, 2025, including communications with court staff, attorneys and/or their agents, or others about: The court's request for a summary of Wife's testimony presented at the April 4, 2025, hearing (as referenced in the court's email dated April 7, 2025), including any follow-up discussions or responses from Mr. Davis agreeing to provide it, and/or Husband's motion to strike Wife's motions for guardian ad litem, psychological evaluation, vocational evaluation, filed April 15, 2025, including any court notes, responses, or related communications.

Emails and text messages (even on a private phone) related to public business are public records under Chapter 119, even if on personal devices, as they constitute "records" if prepared in connection with official duties (Section 119.011(12), F.S.). For judicial

communications about case proceedings and compliance with court instructions, they are public unless exempt. No exemption applies here, as these records pertain to procedural matters in an ongoing case and do not involve confidential or privileged information. If you assert any portion of the requested records is exempt from disclosure, please provide a written explanation citing the specific statutory exemption and redact only the exempt portions, releasing the remainder. If records are withheld, please provide a log detailing the withheld items, including date, sender/recipient, and basis for exemption. Please provide these records in electronic format (PDF preferred) via email to cahanson77@yahoo.com. If there are any fees for copying or processing, please notify me in advance with an estimate. I request a waiver of fees if possible, as this information is in the public interest to ensure transparency in judicial proceedings. Thank you for your prompt attention. Please confirm receipt of this request within 5 business days and provide an estimated completion date.

Re: Follow-up Public Records Request – *Hanson v. Hanson*, Case No.: 24-DR-1150,
Family Law, Division C.

Dear Mr. Hanson:

This letter is in response to your Request for Clarification and Reconsideration of Video Access via email dated August 31, 2025 at 3:57 p.m.

As it relates to your request for the April 4, 2025 video recording, which you also requested in your original public record request of July 25, 2025, the court's public records response of August 26, 2025, stated that a video record does exist satisfying this request, specifically, Docket #198 - April 4, 2025 hearing. However, in accordance with Florida law, surveillance video footage from security cameras located on and within courthouse facilities in the Thirteenth Judicial Circuit is confidential and exempt from public record disclosure. See Fla. R. Admin. 2.420(c)(8); Fla. Stat. §119.071(3)(a); Op Att'y Gen. Fla. 2015-06 (2015). Confidential surveillance video footage may be released only as authorized by §119.071(3)(a)3., Fla. Stat. Accordingly, the court's position to your follow-up request has not changed.

Lastly, as an attorney, I am certain that you can appreciate the fact that the court will not ignore or intentionally violate the applicable rule of court or statute cited above to satisfy your request.

Sincerely,

A handwritten signature in blue ink, which appears to read "Gina Justice", is written over the word "Sincerely,".

Good afternoon. I am writing to follow up on my public records requests dated July 25, 2025, pursuant to Chapter 119, Florida Statutes, and Rule 2.420, Florida Rules of General Practice and Judicial Administration, seeking all emails, text messages, and other written communications involving Judge Kelly A. Ayers, her judicial assistant Dwauna Heyward, and other 13th Circuit representatives related to scheduling or attendance at the December 13, 2024 and the January 9, 2025 hearings along with other relevant materials in Case No. 24-DR-001150, Hanson v. Hanson. I do not have specific emails for Ms. Justice or Ms. Cuenin-Wilson. If I need to include them on this correspondence, please let me know and/or forward this to them.

I picked up paper copies of the records after paying the requested fees at the courthouse the day I first received the letter. However, I've encountered issues that require further action: incomplete/unreadable records, missing communications, and a lack of documentation regarding devices searched. The provided documents lack critical communications, such as documents involving the authority to schedule the December 13, 2024, hearing on such an emergent basis, over a pro se litigant's objections. Of particular concern is the after-hours decisions on December 12, 2024.

No records show Judge Ayers directing or being informed of the scheduling, despite my objection to the date due to unavailability (emails to Heyward, December 11 and 12, 2024). This contrasts with the Court's handling of other emergency motions, such as my December 30, 2024, motion, which received judicial review.

No communications indicate Judge Ayers was aware of Scott Davis's intent not to attend the January 9, 2025, hearing, despite his email to Heyward on January 8, 2025, stating his intent not to attend, which elicited an immediate objection from myself. It's concerning that these documents were not produced in the initial response. Please ensure a search for all text messages and after-hours communications related to the hearings on December 13, 2024 and January 9, 2025, as they are critical to the records request.

Also, no records confirm that my objections to the December 13, 2024, hearing or Davis's non-attendance at the January 9, 2025, hearing were forwarded to Judge Ayers. Please verify whether these communications were shared with her, as their absence suggests a procedural oversight critical to my appeal (Case No. 2D2025-1936).]The absence of any documented correspondence between Judge Ayers and Dwauna Heyward regarding the scheduling of the December 13, 2024, hearing, my objection to it due to unavailability (emails to Heyward, December 11 and 12, 2024), and my objection to Scott Davis's non-attendance at the January 9, 2025, hearing (emails to Heyward and Davis, January 8-9, 2025) is highly irregular, especially given Ayers's documented involvement in other case management matters. There is a concern over a lack of judicial oversight that prejudiced my due process rights as a pro se litigant.

I understand there may be an issue with the check I provided. I will be happy to issue a new check, but could we perform these additional searches and work through other issues with the records before I do that? Hopefully it will not take too long.

Other issues and requests for compliance:

Technical Issues with Records: Many pages are unreadable due to low ink, as shown in attached photos. Electronic PDFs will prevent further issues and ensure an accurate record for my appeal's time-sensitive needs. To address these concerns, I respectfully request Complete Records in PDF Format. If that's possible, please Provide all responsive records in PDF format, sent electronically to cahanson77@yahoo.com, to ensure an untruncated and accurate record. Here's a link to some photos and videos showing the extent of the unreadable documents: <https://share.icloud.com/photos/0f8PmZhcfUT8zIkucVTjNNEWA>

Detailed Index: Include a log specifying dates, senders, recipients, and subjects of all documents, covering December 1, 2024, to April 30, 2025, and specifically addressing communications about the December 13, 2024, January 9, 2025, and April 4, 2025, hearing authorities and attendance issues.

Device Audit: Conduct a thorough search of all devices, including Judge Ayers's and Heyward's personal and work phones, for text messages and after-hours communications, as required by Section 119.011(12), F.S., given the rapid scheduling of the December 13, 2024, hearing (confirmed December 12, 2024, at 9:09 AM) and the significance of the January 9 and April 4, 2025, hearings.

Search Process Explanation: Please provide details of the search process, including any exemptions applied, with statutory citations, to confirm completeness.

Additional Records Request: Provide communications related to the April 4, 2025, hearing, including any orders discussed, Judge Ayers's request for Scott Davis to draft a summary of

testimony, his failure or refusal to do so, my insistence on the summary due to the lack of basis for a guardian ad litem, and Judge Ayers's deferral to Davis on skipping the summary. These are relevant to the pattern of procedural irregularities, including Davis's non-compliance with judicial directives, and critical to my appeal (Case No. 2D2025-1936).

You'll find a copy of the scan of the responsive letter sent in the mail, and the paper copies I picked up attached to this email so there's no dispute about what's produced to date, just in case you do not have an electronic copy of what you've already produced? I am willing to pay reasonable fees and request a prompt response within 48 hours, pursuant to Section 119.07(1)(c), F.S., due to the time-sensitive nature of my appeal and its impact on my family. Please confirm receipt and provide an estimated timeline at 727-409-5738 or cahanson77@yahoo.com. Thank you for your commitment to transparency.

Sincerely,

Chris Hanson

Hello all - Please see attached relating to a new request for information relating to Judge Ayers 4-7-25 request of Mr. Davis to draft a summary and related materials including those relating to my insistence that he draft the summary.

I'm also following up on the questions about the 4-4-25 video documentation.

There are numerous requests outstanding. I would be happy to discuss these issues or do whatever I can to make these searches and follow up searches more efficient and easier on your end. Please do keep me informed on the process in relation to these searches. If you have any questions about what I'm looking for, I'm certainly available to discuss. Thank you for your cooperation.

Good afternoon again. This is a separate but related follow up on the information provided regarding the recordings from hearings. I am writing to request clarification and reconsideration of my prior public records request (dated July 25, 2025) for the video recording of the April 4, 2025, hearing (Docket #198) in Case No. 24-DR-001150, Hanson v. Hanson, following your response from Gina Justice on August 21, 2025, which denied access, classifying whatever you have, as "surveillance video footage from security cameras" and citing Fla. R. Gen. Prac. & Jud. Admin. 2.420(c)(8), Fla. Stat. § 119.07(1)(a), and Op. Att'y Gen. Fla. 2015-06.

As the first point of clarification, please advise whether there is any video from inside the courtroom on April 4, 2025. Is it something that is connected the microphones and used for formally recording some hearings? Are there separate recording systems - for hearings vs. for security?

I believe reconsideration and release of the video is appropriate regardless. Judge Ayers specifically offered to obtain the video during the hearing, integrating it into the judicial process and making it critically relevant to my pending appeal (Case No. 2D2025-1936) and the facts related to the ongoing litigation, where I allege due process violations, judicial bias, and systemic corruption (Initial Brief, Point II, p. 31). If there is any recording available related to courtroom recordings (e.g., from a system capturing microphones and hearing audio), it is treated differently under Rule 2.535 (court reporting) and is accessible to parties. Even if the only video falls squarely under the security umbrella, given active corruption concerns impacting Hillsborough County residents—supported by my brief's claims of bias and ethical violations (Point V, p. 37), the clerk's office should still release the video to me under these circumstances. The statute on confidentiality should not be misused to protect evidence of a sitting judge's misconduct, including potential lies about her actions, especially if the video documents procedural irregularities and documents an obvious contemporaneous lie... about her bias.

I request the video in a digital, viewable format, sent to cahanson77@yahoo.com, along with a detailed index of all related communications, a confirmation of the recording type (security vs. courtroom), and a search process explanation, including any exemptions applied with statutory citations. I am willing to pay reasonable fees and request a prompt response within 48 hours, pursuant to Section 119.07(1)(c), F.S., due to my appeal's time sensitivity. Please let me know, especially on this follow up as soon as you can as additional timely action is necessary if you maintain the refusal to produce.

Thank you for your cooperation.

Good morning. I received the attached correspondence, which I believe is in reference only to the emails below? There is separate correspondence addressing other requests. Regardless, please confirm that you are still addressing the concerns that I've raised below. The correspondence you mailed does not address the substance of my follow up. The major issue is the 4 pages that were withheld. Please address my concerns below by either providing the redacted version or further justification for the withholding including limiting redactions to what is absolutely necessary and providing specific justification for anything withheld.

I would appreciate a response by email. Time is of the essence due to the pending appeal and my familial situation. I'm not sure anyone understands just how much damage corruption like what I've experienced in the 13th Circuit causes. I'm hoping that I don't have to engage in a long drawn out battle to get some cooperation. Please let me know if there's anything I can do to expedite this process. I have not received any response to my other follow ups and I will write separately on those. Thank you for your cooperation.

I also wanted to follow up on this again after my correspondence last Tuesday, below. This will require additional, timely action if the clerk's office is maintaining its refusal to provide this information without at least providing a redacted version of the correspondence. This information is important to an active appeal and ongoing and increasing threats to the welfare of my children. please respond as soon as you can.

I do have some additional records requests coming over. I'd like to make it as convenient and easy for all involved in terms of managing the requests, searching the relevant devices, and preparing the documents. Do you prefer that each request be the subject of a separate letter? And perhaps we can discuss how much specificity you need in the requests. If broad language is acceptable, I can probably limit it to just a couple/few requests. Please let me know your thoughts about that.

Finally, please pass this information along to Ms. Justice and Ms. Cuenin- Wilson and provide me with their contact information if they need to be on these emails. Thank you for your cooperation.

Dear Ms. Justice and Mr. Moore,

I hope this email finds you well. I am writing as a follow-up to my public records request dated August 14, 2025, regarding all emails, text messages, and other written communications involving Judge Wendy J. DePaul, her judicial assistant (Patty Coone), and/or any other 13th Circuit representatives related to her Order of Recusal dated April 28, 2025, in Case No. 24-DR-001150, In Re: The Marriage of Sarah Hanson and Christopher Hanson.

I appreciate your response dated August 22, 2025, and the partial production of records provided therein. However, the three pages you enclosed are documents I already possess from the case file. As such, they do not fulfill the substance of my request for underlying communications, such as emails or internal correspondence, from April 1, 2025, to May 31, 2025.

I am particularly concerned about **the withholding of the four pages of correspondence between Judge DePaul and the Assistant General Counsel**, which you described as confidential under Florida Rule of General Practice and Judicial Administration 2.420(c)(1) because they "directly involve the judicial decision-making process."

With all due respect, I believe this exemption does not apply in this context. Judge DePaul specifically never engaged in "judicial decision-making" related to my case. For some still unknown reason, she simply recused herself on her own initiative to avoid engaging in any such decision-making. Recusal in this instance appears to be an administrative action and Administrative Order S-2025-013, aimed at case reassignment, rather than a deliberative process tied to adjudicating the underlying divorce proceedings. Concealing this information from me, given the facts of this case—including ongoing allegations of bias and systemic issues in the 13th Circuit as detailed in my pending appeal (Case No. 2D2025-1936)—is deeply disappointing and exacerbates the damage to my family. For over a year now, my family has suffered due to this corruption, and concealing correspondence that might alleviate the damage is incredibly concerning to me.

To resolve this, I kindly request that you reconsider the exemption and provide the withheld records in full. If full disclosure is not possible, please furnish redacted versions that remove only the truly privileged portions (e.g., any legal advice unrelated to the recusal process itself) while releasing factual or administrative content, such as discussions about the timing, reasons for recusal, or communications with other court staff or judges.

Additionally, pursuant to Rule 2.420(m), I request **a more detailed written explanation for the withholding, including specific statutory or rule citations for each redacted clause/point and a description of the search process used to locate and review these materials, to ensure the response is complete.**

I remain willing to pay any reasonable fees associated with this production. If you believe an exemption still applies or if there are additional records that were not located in your initial search, please advise so that we may address the matter appropriately, potentially through an administrative appeal or judicial review.

On a side note, I have already left a message for Ms. Christine Cuenin-Wilson about paying for the records that are the subject of the 8-21 response from you, Ms. Justice. I plan to pay over the phone or go to the Court house to pay today and hopefully get the records at least in electronic form (if not the actual papers) today. Please assist with that process however you can.

Thank you for your attention to this matter and for your commitment to transparency. I look forward to your prompt response and am available at 727-409-5738 or cahanson77@yahoo.com if you have any questions.

Good morning, Mr. Moore. Please send along any of the responsive documents you have to any of the different requests I've made to date. Not sure if you're waiting until you have all 3 or now 4 (with yesterdays on Judge DePaul) different requests before sending. However, due to various factors, I'd appreciate you passing along responses to each individual request as it becomes available. Can you give me an expected timeline? I know there's not a number of days defined, but any information on expected delays etc. would help me with time management, planning, etc. Thank you and have a nice weekend.

Follow up on Request for Clarification and Reconsideration of Video Access – Case No. 24-DR-001150, Hearing of April 4, 2025

Good morning. I have not received any response related to this either. It seems this should be pretty straightforward? There was something identified relating to the 4-4-25 hearing, specifically missing from the other hearing dates. Logically, it doesn't appear that it could be the standard security video, because that would mean that it was not running or otherwise unavailable for all the other hearing dates. That just doesn't seem plausible. Please provide this information at your earliest convenience as it is critical evidence for the 2nd DCA on a pending appeal. If you are refusing to provide it, please provide detailed justification regarding same. And once again, I want to help make this is efficient and painless for everyone as I can. I apologize for the 3 separate emails, but I do want to ensure compliance and responses with all requests. There are several more in draft form. If you have any preferences or suggestions on how specific vs. broad you want them, I can certainly work with you on that. Thank you for your cooperation.

Good afternoon again. This is a separate but related follow up on the information provided regarding the recordings from hearings. I am writing to request clarification and reconsideration of my prior public records request (dated July 25, 2025) for the video recording of the April 4, 2025, hearing (Docket #198) in Case No. 24-DR-001150, Hanson v. Hanson, following your response from Gina Justice on August 21, 2025, which denied access, classifying whatever you have, as "surveillance video footage from security cameras" and citing Fla. R. Gen. Prac. & Jud. Admin. 2.420(c)(8), Fla. Stat. § 119.07(1)(a), and Op. Att'y Gen. Fla. 2015-06.

As the first point of clarification, please advise whether there is any video from inside the courtroom on April 4, 2025. Is it something that is connected the microphones and used for formally recording some hearings? Are there separate recording systems - for hearings vs. for security?

I believe reconsideration and release of the video is appropriate regardless. Judge Ayers specifically offered to obtain the video during the hearing, integrating it into the judicial process and making it critically relevant to my pending appeal (Case No. 2D2025-1936) and the facts related to the ongoing litigation, where I allege due process violations, judicial bias, and systemic corruption (Initial Brief, Point II, p. 31). If there is any recording available related to courtroom recordings (e.g., from a system capturing microphones and hearing audio), it is treated differently under Rule 2.535 (court reporting) and is accessible to parties. Even if the only video falls squarely under the security umbrella, given active corruption concerns impacting Hillsborough County residents—supported by my brief's claims of bias and ethical violations (Point V, p. 37), the clerk's office should still release the video to me under these circumstances. The statute on confidentiality should not be misused to protect evidence of a sitting judge's misconduct, including potential lies about her actions, especially if the video documents procedural irregularities and documents an obvious contemporaneous lie... about her bias.

I request the video in a digital, viewable format, sent to cahanson77@yahoo.com, along with a detailed index of all related communications, a confirmation of the recording type (security vs. courtroom), and a search process explanation, including any exemptions applied with statutory citations. I am willing to pay reasonable fees and request a prompt response within 48 hours, pursuant to Section 119.07(1)(c), F.S., due to my appeal's time sensitivity. Please let me know, especially on this follow up as soon as you can as additional timely action is necessary if you maintain the refusal to produce.

Thank you for your cooperation.

Good afternoon. I am writing to follow up on my public records requests dated July 25, 2025, pursuant to Chapter 119, Florida Statutes, and Rule 2.420, Florida Rules of General Practice and Judicial Administration, seeking all emails, text messages, and other written communications involving Judge Kelly A. Ayers, her judicial assistant Dwauna Heyward, and other 13th Circuit representatives related to scheduling or attendance at the December 13, 2024 and the January 9, 2025 hearings along with other relevant materials in Case No. 24-DR-001150, Hanson v. Hanson. I do not have specific emails for Ms. Justice or Ms. Cuenin-

Wilson. If I need to include them on this correspondence, please let me know and/or forward this to them.

I picked up paper copies of the records after paying the requested fees at the courthouse the day I first received the letter. However, I've encountered issues that require further action: incomplete/unreadable records, missing communications, and a lack of documentation regarding devices searched. The provided documents lack critical communications, such as documents involving the authority to schedule the December 13, 2024, hearing on such an emergent basis, over a pro se litigant's objections. Of particular concern is the after-hours decisions on December 12, 2024.

No records show Judge Ayers directing or being informed of the scheduling, despite my objection to the date due to unavailability (emails to Heyward, December 11 and 12, 2024). This contrasts with the Court's handling of other emergency motions, such as my December 30, 2024, motion, which received judicial review.

No communications indicate Judge Ayers was aware of Scott Davis's intent not to attend the January 9, 2025, hearing, despite his email to Heyward on January 8, 2025, stating his intent not to attend, which elicited an immediate objection from myself. It's concerning that these documents were not produced in the initial response. Please ensure a search for all text messages and after-hours communications related to the hearings on December 13, 2024 and January 9, 2025, as they are critical to the records request.

Also, no records confirm that my objections to the December 13, 2024, hearing or Davis's non-attendance at the January 9, 2025, hearing were forwarded to Judge Ayers. Please verify whether these communications were shared with her, as their absence suggests a procedural oversight critical to my appeal (Case No. 2D2025-1936).]The absence of any documented correspondence between Judge Ayers and Dwauna Heyward regarding the scheduling of the December 13, 2024, hearing, my objection to it due to unavailability (emails to Heyward, December 11 and 12, 2024), and my objection to Scott Davis's non-attendance at the January 9, 2025, hearing (emails to Heyward and Davis, January 8-9, 2025) is highly irregular, especially given Ayers's documented involvement in other case management matters. There is a concern over a lack of judicial oversight that prejudiced my due process rights as a pro se litigant.

I understand there may be an issue with the check I provided. I will be happy to issue a new check, but could we perform these additional searches and work through other issues with the records before I do that? Hopefully it will not take too long.

Other issues and requests for compliance:

Technical Issues with Records: Many pages are unreadable due to low ink, as shown in attached photos. Electronic PDFs will prevent further issues and ensure an accurate record for my appeal's time-sensitive needs. To address these concerns, I respectfully request Complete Records in PDF Format. If that's possible, please Provide all responsive records in PDF format, sent electronically to cahanson77@yahoo.com, to ensure an untruncated and accurate record. Here's a link to some photos and videos showing the extent of the unreadable documents: <https://share.icloud.com/photos/0f8PmZhcfUT8zIkucVTjNNEWA>

Detailed Index: Include a log specifying dates, senders, recipients, and subjects of all documents, covering December 1, 2024, to April 30, 2025, and specifically addressing communications about the December 13, 2024, January 9, 2025, and April 4, 2025, hearing authorities and attendance issues.

Device Audit: Conduct a thorough search of all devices, including Judge Ayers's and Heyward's personal and work phones, for text messages and after-hours communications, as required by Section 119.011(12), F.S., given the rapid scheduling of the December 13, 2024, hearing (confirmed December 12, 2024, at 9:09 AM) and the significance of the January 9 and April 4, 2025, hearings.

Search Process Explanation: Please provide details of the search process, including any exemptions applied, with statutory citations, to confirm completeness.

Additional Records Request: Provide communications related to the April 4, 2025, hearing, including any orders discussed, Judge Ayers's request for Scott Davis to draft a summary of testimony, his failure or refusal to do so, my insistence on the summary due to the lack of basis for a guardian ad litem, and Judge Ayers's deferral to Davis on skipping the summary. These are relevant to the pattern of procedural irregularities, including Davis's non-compliance with judicial directives, and critical to my appeal (Case No. 2D2025-1936).

You'll find a copy of the scan of the responsive letter sent in the mail, and the paper copies I picked up attached to this email so there's no dispute about what's produced to date, just in case you do not have an electronic copy of what you've already produced? I am willing to pay reasonable fees and request a prompt response within 48 hours, pursuant to Section 119.07(1)(c), F.S., due to the time-sensitive nature of my appeal and its impact on my family. Please confirm receipt and provide an estimated timeline at 727-409-5738 or cahanson77@yahoo.com. Thank you for your commitment to transparency.
